IFQ Cost Recovery Program
(NMFS Management Report)
Agenda Item B-3

Dear Mr. Benton:

In a Notice soon to be published in the Federal Register the Secretary will announce that the 2000 IFQ fee percentage has been set at **1.8 percent**. Under the Cost Recovery regulations, IFQ permit holders who used their permits to record landings of halibut or sablefish during this year's IFQ fishery are obligated to pay that percentage of their total ex-vessel receipts from the sale of their halibut or sablefish.

The 1.8 percent figure was derived from two other numbers: 1) the total "ex-vessel" value of the halibut and sablefish fisheries; and, 2) the total costs of managing and enforcing the IFQ program. These are discussed below:

Ex-Vessel Value of the IFQ Fisheries

Because the fee obligation is premised on a percentage of the ex-vessel value of the IFQ fisheries, it has been necessary to calculate those values. We are aware that ex-vessel prices vary from port to port, and with the time of year. Therefore, the regulations require that IFQ Registered Buyers report on the prices they paid to IFQ permit holders.

Accordingly, during October and early November, IFQ Registered Buyers that received IFQ halibut or sablefish as shore-side processors submitted information on how much IFQ halibut and sablefish they received and how much they paid to IFQ holders; the information was reported by species, by port, and by month (for this first year only, we have used the reported September prices for October and November; waiting until the season closed would have been impractical). Once collected, the data were used to derive the mean (average) ex-vessel value for both species, each port, and each month. Following this calculation, the amount of IFQ product delivered to each port, by month, was multiplied by the value. Overall, the calculations show that the total "standard" ex-vessel value of the two fisheries was as follows:

Halibut	\$128,431,045.55
<u>Sablefish</u>	<u>67,451,286.00</u>
Total	\$195,882,331.55

Management and Enforcement Costs

The other part of the process of determining the fee is calculation of the costs associated with managing and enforcing the IFQ program. Note that these costs are the incremental costs (i.e., those costs that would not have been incurred but for the IFQ program). To ascertain those costs, in early September, RAM solicited cost information from the following non-RAM entities:

NOAA General Counsel/Alaska Region
 NMFS/AKR Sustainable Fisheries Division
 NMFS/AKR Office of Law Enforcement
 North Pacific Fishery Management Council
 International Pacific Halibut Commission

Both NOAA General Counsel and the North Pacific Fishery Management Council opted not to identify their IFQ-related costs, because IFQ related activities were simply part of their overall workload. However, the other four entities did submit information on their costs. The table below identified those costs (note that the costs are set out in standard NOAA Finance Accounting Codes).

Accounting Category	RAM	Enforcement	Sustainable Fisheries	Halibut Commission	Total
Personnel Costs	635,745	1,467,434	49,460	89,248	2,241,887
Travel	17,278	237,687	3,306	9,231	267,502
Transportation	287	28,722	0	0	29,009
Printing	6,263	1,203	0	0	7,466
Contracts/Training	16,991	97,799	0	4,215	119,005
Supplies	22,470	50,035	2,886	1,593	76,984
Equipment	352	40,564	0	21,145	52,061
Rent/Utils/O'head	431,696	241,384	5,550	1,567	398,829
TOTAL	1,131,082	2,164,828	61,202	116,999	3,474,111

Notes to table:

1. "Personnel Costs" include COLA and all benefits
2. "Travel" includes per diem payments
3. "Transportation" includes shipment of items (i.e., transaction terminals)
4. "Rent/Utils/O'head" includes actual cost of space and utilities and appropriate share of common space and services

Fee Percent Calculation

To determine the percentage of each IFQ permit holder's ex-vessel sales that are needed for cost recovery, we simply divide the costs (\$3,474,111) by the total ex-vessel value of the fisheries (\$195,882,331.55). The result of that calculation is .0177. This amount, rounded, amounts to **1.8 percent**.

Payment of the Fee

Shortly after the fee percent is published in the Federal Register, RAM will prepare statements (bills) for every IFQ permit holder whose permit was used to record IFQ landings during 2000. The bills will display the species, date, and IFQ pounds landed and the standard ex-vessel price that applies to each landing. These are then summed and the result is the total is the permit holder's fee liability (i.e., the amount of the "bill" that should be paid). Payments are due by no later than January 31, 2001.

Permit Holder's Options

An IFQ permit holder may simply pay the amount that is billed. Alternatively, if s/he believes that the "standard" ex-vessel value, as calculated by RAM from information provided by the Registered Buyers does not accurately reflect her/his actual receipts, s/he may opt to apply the 1.8% to those actual receipts; if s/he opts to do so, however, s/he must be prepared to show the actual receipts from sales of fish.

Use of Funds

Twenty-five percent of all fee payments will be deposited in the U.S. Treasury and made available for the Congress to appropriate in support of the North Pacific (IFQ) Loan Program. The other 75 percent is deposited in the "Limited Access System Administrative Fund" (LASAF) and is available to the Secretary to offset the costs of managing and enforcing the program.

It is instructive to note that the fee is not expected to result in any real increase in budgets or expenditures; it will simply offset funds that would have been appropriated; therefore, there is no particular budgetary "advantage" to be gained by inflating the management and enforcement costs.

Conclusion

We have been pleased with the level of cooperation we have received from the IFQ fleet and from Registered Buyers. Although it's fair to say that no one is anxious to pay the fee, it is also

fair to say that most program participants accept the mandate and have been cooperating with us as we gear up to collect it.

Please let us know if you have any questions.

Sincerely,

Philip J. Smith

IFQ Fees – 2000
Report to the North Pacific
Fishery Management Council

National Marine Fisheries Service
Restricted Access Management
December 2000
Anchorage, Alaska

Background Information

- IFQ Fee is mandated by Magnuson-Steven Act
- Fee may not exceed 3% of the ex-vessel value
- Fees collected will be used to
 - recover costs of management and enforcement (75%)
 - make funds available for Congress to appropriate to support the North Pacific (IFQ) Loan Program (25%)
- Council Committee and NMFS Staff met throughout 1997 and 1998 to design cost recover (fee collection) system.
- Final Rule was effective March 15, 2000

Key Elements of Fee-Setting

- The cost of managing and enforcing the IFQ program; and,
- The ex-vessel value of IFQ landings

Program costs divided by total ex-vessel value yields the amount to be paid; or,

$$\text{Cost} \div \text{Value} (x 100) = \text{Fee } \%$$

Determining the Costs - 1

- RAM sought FY00 cost information from:
 - NMFS Office of Law Enforcement
 - NMFS Sustainable Fisheries Division
 - NOAA General Counsel
 - Pacific Halibut Commission
 - North Pacific Fishery Management Council
 - Restricted Access Management
- Responses included:

Determining the Costs - 2

- Pacific Halibut Commission \$ 116,999
- NMFS Law Enforcement 2,164,828
- NMFS Sustainable Fisheries 61,202
- NMFS/RAM 1,131,082

TOTAL COSTS: \$ 3,474,111

Determining the Value - 1

- Registered Buyers provided price paid
 - by species, port, and month
- RAM compiled data to determine “standard” IFQ prices
- Standard prices published by port, group of ports, or “all Alaska”
 - depends on number of observations (confidentiality)
- Standard price for species/port/month of landing times pounds of IFQ landings yields total fishery value

Determining the Value - 2

- Halibut pounds 51,633,480
- Halibut value \$128,423,045.55 ² ₁₉₂₀
- Sablefish pounds 27,570,787
- Sablefish value \$ 67,451,286.00

TOTAL VALUE: \$195,882,331.55

Calculating the 2000 Fee %

$$\begin{aligned} &\text{Costs } (\$ 3,474,111.00) \div \text{Value } (\$195,882,331.55) \\ &= .01773 \times 100 \text{ (and rounded)} \\ &= \mathbf{1.8\%} \end{aligned}$$

Collecting the Fees

- Each IFQ Permit Holder will soon receive a statement (bill), which will
 - contain information on pounds, ports, and month of each IFQ landing
 - apply 1.8% fee to “standard” value for each landing
 - sum all to show fee liability (total amount due to NMFS by 1/31/01)
- Permit Holder then has a choice:
 - s/he may pay 1.8% of “Standard” value of landings as set out on the statement; or,
 - s/he may pay 1.8% “actual” value of IFQ sales (if s/he so chooses, s/he must prove actual value)

Use of the Funds

- 25% will be deposited in US Treasury
 - may be appropriated by Congress to support the North Pacific (IFQ) Loan Program
- 75% will be deposited in the “Limited Access System Administrative Fund” (LASAF)
 - will be made available to the Secretary to pay future costs of managing and enforcing the IFQ program
- Note that no more than 75% of the costs will ever be recovered
- Not “new money” -- income from fees will simply offset equivalent annual appropriations

Accountability/Reporting

- Regulations require Annual Report on Fee Program
 - may be included in annual “Report to the IFQ Fleet”
- Report will be detailed, and will (at a minimum) include information on
 - cost determinations by accounting line-item
 - value determinations by port, port group, and month
 - number of IFQ permit holders who paid (and who did not pay) and total amount paid (and due)
 - number of permit holders choosing “actual” values
 - amount deposited to Treasury for Loan program
