

September 28, 2015						
TO: Chairman Dan Hull						
FROM: Mission Blue 503(c)3						
North Pacific Fishery Management Council						
605 West 4th Avenue, Suite 306						
Anchorage, AK 99501						
RE: C3 – Bering Sea Canyon Corals						
Dear Chairman Hull and Members of the Council:						
Please find enclosed 13,844 signatures to the petition, whose full language is included below.						
Thank you.						
PETITION LANGUAGE:						
To: North Pacific Fishery Management Council						
I'm joining the call to protect the Bering Sea Canyons!						
With this action, I raise my voice with more than 200,000 people,						
environmental and indigenous groups, and hundreds of businesses						
—including many of our nation's largest supermarkets and seafood						
buyers—to call on the North Pacific Fishery Management Council to						
protect these important and threatened habitats.						
The council has already compiled an excellent body of data enabling						
it to identify areas containing vulnerable coral and sponge habitats.						
We urge the council to implement a network of benthic protected						
areas that includes a representative sample of habitats found in the						
Bering Sea Green Belt, where no protections exist. We further insist						
that the council move swiftly to analyze various options for						
mitigating fishing impacts, including those presented by						
conservation NGOs, for the protection of corals and sponges						
in the Bering Sea.						
I urge the council to take decisive action.						
It is time to bring balance to the Bering Sea.						
Sincerely,						
[Your name here]
