RE: The Bering Sea, Agenda Item () C7-6

Dear Chairman Olson and Council Members,

No Commercial fishing in the Bering Sea Canyons
because it will destroy our planet. And I don't
know about you but I would like to be able to continue
to live here. These creatures don't deserve to have their
homes destroyed. Please consider the life living there and
create a no-fishing zone.

Sincerely,

Mr. Eric Olson
Council Member
North Pacific Fishery Mgmt. Council
605 West 4th Ave., Suite 306
Anchorage, AK 99501-2252

Dear Mr. Olson -

I am writing in regard to the NPFMC's consideration of the Bering Sea Canyons Habitat. I strongly urge the council to do everything in its power to protect this habitat from the damage inflicted by fishing, particularly by bottom trawling. The ecosystem of the canyons, especially the corals and sponges, are critical to the wildlife in this sensitive part of the ocean, and a healthy canyon will be important for other species that live there (whales, walrus, bears, seals, etc.).

By moving to protect this part of the Bering Sea, the Council will help ensure fish for the future, while protecting the vast underwater canyons.

Thank you for your
consideration;
Laura Selby

RE: The Bering Sea, Agenda Item () C7-B

Dear Chairman Olson and Council Members,

Our future generations depend
on the ocean and the ecosystem
it provides. Look at the
science and how much
potential research there
still is and protect the
Bering Sea canyons, before
we make an irreversible,
costly mistake.

Sincerely,

Nicole Berry

RE: The Bering Sea, Agenda Item () C7-6

Dear Chairman Olson and Council Members,

Let's be honest here; we're out here to continue what we've been doing for ages, to make our lifestyle last; to thrive and to get out with as few scars as possible. That's life, right? Survival; the continuance of our existence.

Our planet does the same damn thing. The question is not "who will take care of her if we don't?" The question is: "What side do you want to be on when she does it herself?"
Trust me, she doesn't need our protection, but I'd much rather say I did my part, for what she's done for me.
Protect her. Or she will.

Sincerely,

RE: The Bering Sea, Agenda Item () C7-b

Dear Chairman Olson and Council Members,

As a resident of Washington, State, and a wildlife advocate, I would highly encourage the Council to push forward the creation of a marine reserve in the Bering sea. This would not only allow wild life to thrive in an unexplored portion of the waters, but also serve as an insurance policy for our fisheries and the communities that rely on these areas for sustenance.

RE: The Bering Sea, Agenda Item () C7-b

Dear Chairman Olson and Council Members,

I support the Campaign to protect the Bering Sea Campaign.

The area in the Bering Sea called the Green Belt produces about 5% of US seafood. There is no reason, with that kind of annual take, that there should not be some protections in place to ensure the sustainability of the campaign.

Thank you,

Roger Martin

RE: The Bering Sea, Agenda Item () 07-6

Dear Chairman Olson and Council Members,

I am exceptionally concerned over the use of trolling practices in the Bering Sea. The ecosystems that exist in the deepest parts of ^{our} oceans & seas are vital to our species survival and require further study and analysis before we blindly accept such damaging practices. The fact that some of the bi-product of these methods ^{is} ^{to} support corporations like McDonald's only adds fuel to my zealous fire in support of this cause. Again, as a concerned citizen, I urge you in the strongest terms to take action in this matter.

RE: The Bering Sea, Agenda Item () C7-b

Dear Chairman Olson and Council Members,

As a concerned citizen, I am being an advocate for the sea life. There should be a like drawn for the amount of fishing and destruction allowed. The traditional tribal culture should be protected as well. The fish industry is essential, but it should not put the Bering sea canyons at risk. Please take this into consideration.

Sincerely,

RE: The Bering Sea, Agenda Item () C7-8

Dear Chairman Olson and Council Members,

I am in full support of the Bering Sea canyon protection. As I consume fish out of this sea, it is imperative to my well-being as well as the well-being of many of the organisms that live here that there be a no fishing zone in the canyons. Due to the clearing of the ocean floor that wipes out the corals and sponges that live here. These environments should not be destroyed and I personally feel a responsibility to protecting our planet and its inhabitants.
