

MEMORANDUM

TO: Council and Commission Members  
FROM: Gregg Williams, IPHC  
DATE: October 4, 1999  
SUBJECT: Update on IPHC data for Local Area Management Plans

BACKGROUND

To aid in the development of Local Area Management Plans (LAMPs), the Council requested at the 1998 joint meeting that IPHC provide a time series of commercial halibut landings data. IPHC staff recently completed this task, compiling 1995-1998 data for Areas 2C and 3A by IPHC and ADF&G area. Another data set for 1977-1998 also has been made available. The data were sent to ADF&G in Homer and Juneau in early August. Future requests for data should be made to those offices.
