N.P.F.M.C.

Re: Agenda Item C-5, Gulf of Alaska Groundfish Rationalization

Dear Members of the NPFMC,

Enclosed you will find signed letters protesting the privatization of our nation's fisheries. Please review and take this under serious consideration.

Thank You!

We received 340 of these comments - see Helen for originals.

Did you know.....?

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

Did you know.....?

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

THE UNIVERSITY OF CHICAGO
DEPARTMENT OF CHEMISTRY

1. The first part of the experiment is to determine the molar mass of a polymer. This is done by measuring the osmotic pressure of a solution of the polymer in a solvent.

2. The second part of the experiment is to determine the degree of substitution of a polymer. This is done by measuring the change in the refractive index of a solution of the polymer in a solvent.

3. The third part of the experiment is to determine the molecular weight of a polymer. This is done by measuring the sedimentation velocity of a solution of the polymer in a solvent.

4. The fourth part of the experiment is to determine the molecular weight of a polymer. This is done by measuring the sedimentation velocity of a solution of the polymer in a solvent.

5. The fifth part of the experiment is to determine the molecular weight of a polymer. This is done by measuring the sedimentation velocity of a solution of the polymer in a solvent.

6. The sixth part of the experiment is to determine the molecular weight of a polymer. This is done by measuring the sedimentation velocity of a solution of the polymer in a solvent.

7. The seventh part of the experiment is to determine the molecular weight of a polymer. This is done by measuring the sedimentation velocity of a solution of the polymer in a solvent.

8. The eighth part of the experiment is to determine the molecular weight of a polymer. This is done by measuring the sedimentation velocity of a solution of the polymer in a solvent.

Did you know.....?

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaskan coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

Did you know.....?

THE FEDERAL GOVERNMENT IS SYSTEMATICALLY PRIVATIZING THE FISHERIES OF ALASKA

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the ground fish fisheries include cod, flatfish, etc, in the Gulf of Alaska. Crab Rationalization is already leading to a dramatic loss of employment and collapsing infrastructure in many Alaska coastal communities. They are generating windfall profits for the wealthiest companies, creating huge barriers to entering the industry and mandating fishermen sell to specific markets.

FAKED
3-28-06

THE FEDERAL GOVERNMENT IS SYSTEMATICALLY PRIVATIZING THE FISHERIES OF ALASKA

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the ground fish fisheries include cod, flatfish, etc, in the Gulf of Alaska. Crab Rationalization is already leading to a dramatic loss of employment and collapsing infrastructure in many Alaska coastal communities. They are generating windfall profits for the wealthiest companies, creating huge barriers to entering the industry and mandating fishermen sell to specific markets.

We believe the Ocean is a Public Resource and is no one's to GIVE AWAY

Help us keep our oceans accessible now and for future generations.

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

Did you know.....?

THE FEDERAL GOVERNMENT IS SYSTEMATICALLY PRIVATIZING THE FISHERIES OF ALASKA

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

DO YOU HAVE THE COURAGE TO DO YOUR PART?

Help Us Keep Our Oceans Accessible

Now and for Future Generations.

TO THE NORTH PACIFIC MANAGEMENT COUNCIL

My name is "print"

I "circle" pot cod jig cod long line cod drag
home owner business person employed person
I'm a "circle one" owner skipper crewman wife
friend dependent or

I do not want to see the privatization of the ground
fish in the gulf of Alaska because it would mean less
boats, less crew jobs, and the only people it will
benefit are the boat owners.

I challenge the council to put any plan before the
people to a vote like any publicly trade company.

Everybody in the country has a right to vote.
Nobody should own the fish before they are caught.

The council screwed up the crab rationalization try
and fix that!

The council's observer program is a disaster fix that.
Lets keep as many boats in the harbor as we
possibly can, not a few super boats.

Did you know.....?

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

Did you know.....?

THE FEDERAL GOVERNMENT IS SYSTEMATICALLY PRIVATIZING THE FISHERIES OF ALASKA

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

Did you know.....?

THE FEDERAL GOVERNMENT IS SYSTEMATICALLY PRIVATIZING THE FISHERIES OF ALASKA

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

If you agree, write a letter or simply sign and fax this ad to:

Did you know.....?

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

If you agree, write a letter or simply sign and fax this ad to:

Did you know.....?

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

Did you know.....?

THE FEDERAL GOVERNMENT IS SYSTEMATICALLY PRIVATIZING THE FISHERIES OF ALASKA

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

Did you know.....?

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

DO YOU HAVE THE COURAGE TO DO YOUR PART?

Help Us Keep Our Oceans Accessible

Now and for Future Generations.

Did you know.....?

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

If you agree, write a letter or simply sign and fax this ad to:

THE FEDERAL GOVERNMENT IS SYSTEMATICALLY PRIVATIZING THE FISHERIES OF ALASKA

Did you know.....?

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, halibut, etc., in the Gulf of Alaska. Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

Did you know.....?

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

If you agree, write a letter or simply sign and fax this ad to:

THE FEDERAL GOVERNMENT IS SYSTEMATICALLY PRIVATIZING THE FISHERIES OF ALASKA

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc, in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaskan coastal communities. It is generating windfall profits for the Wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY**

Did you know.....?

THE FEDERAL GOVERNMENT IS SYSTEMATICALLY PRIVATIZING THE FISHERIES OF ALASKA

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

Did you know.....?

THE FEDERAL GOVERNMENT IS SYSTEMATICALLY PRIVATIZING THE FISHERIES OF ALASKA

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

Did you know.....?

THE FEDERAL GOVERNMENT IS SYSTEMATICALLY PRIVATIZING THE FISHERIES OF ALASKA

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

Did you know.....?

THE FEDERAL GOVERNMENT IS SYSTEMATICALLY PRIVATIZING THE FISHERIES OF ALASKA

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

Did you know.....?

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

If you agree, write a letter or simply sign and fax this ad to:

PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource

Did you know.....?

**THE FEDERAL GOVERNMENT IS SYSTEMATICALLY
PRIVATIZING THE FISHERIES OF ALASKA**

Proposals now in front of the North Pacific Fisheries Management Council seek to lock up the groundfish fisheries which include cod, flatfish, etc., in the Gulf of Alaska.

Crab Rationalization has already led to a dramatic loss of employment and is collapsing the economic infrastructure of many Alaska coastal communities. It is generating windfall profits for the wealthiest companies, creating huge barriers to advancement in the industry and mandating fishermen sell to specific markets.

**We believe the Ocean is a Public Resource
It is no one's to GIVE AWAY!**

**DO YOU HAVE THE COURAGE TO DO YOUR PART?
Help Us Keep Our Oceans Accessible
Now and for Future Generations.**

If you agree, write a letter or simply sign and fax this ad to:
(907) 486-2649
by 5 p.m. March 28, 2006

1870
The first of the year was a very cold one, and the
frost was very early. The snow was very deep,
and the wind was very strong. The weather was
very disagreeable, and the people were very
suffering. The crops were very poor, and the
people were very poor. The year was a very
sad one, and the people were very sad.

We, the undersigned concerned citizens of coastal Alaska, stand united against mandatory delivery requirements in the form of processor association/linkages in the Gulf of Alaska Groundfish Rationalization Program. We support open, competitive markets that preserve healthy community fishing economies and maintain diverse independent fishing fleets.
