

9/30/76

Scientific and Statistical Committee

Note: The establishment of a scientific and statistical committee is mandated by the Act and its duties well outlined. It is the only committee specifically named in the Act. The Act goes on to say that the Council shall establish such other advisory panels as are necessary and appropriate. Duties of such other panels are very loosely defined "to assist it (Council) in carrying out its functions under the Act."

A philosophy for choosing S & S committee has not been developed and will, of course, depend on Council input.

FMCA - Sec. 302(g)(1)

(g) Committees and Panels.

(1) Each Council shall establish and maintain, and appoint the members of, a scientific and statistical committee to assist it in the development, collection, and evaluation of such statistical, biological, economic, social, and other scientific information as is relevant to such Council's development and amendment of any fishery management plan.

Operations Manual II-8(c)(1)

c. Committees and Panels

Each Council shall establish and maintain, and appoint the members of, a Scientific and Statistical Committee to assist it in the development, collection, and evaluation of such statistical, biological, economic,

Scientific and Statistical Committee

Note: The establishment of a scientific and statistical committee is mandated by the Act and its duties well outlined. It is the only committee specifically named in the Act. The Act does not say that the Council shall establish such other advisory panels as are necessary and appropriate. Duties of such other panels are very loosely defined "to assist it (Council) in carrying out its functions under the Act."

A philosophy for choosing a 2 committee has not been developed and will, of course, depend on Council input.

FOIA - Sec. 302(p)(1)

(g) Committees and Panels.

(1) Each Council shall establish and maintain and appoint the members of a scientific and statistical committee to assist it in the development, collection, and evaluation of such statistical, biological, economic, social, and other scientific information as is relevant to such Council's development and amendment of any fishery management plan.

Operations Manual II-8(c)(1)

c. Committees and Panels

Each Council shall establish and maintain, and appoint the members of a Scientific and Statistical Committee to assist it in the development, collection, and evaluation of such statistical, biological, economic,

social, and other scientific information as is relevant to such Council's development or amendment of any fishery management plan. Further, the Council shall establish such other advisory panels as are necessary or appropriate to assist it in carrying out its functions under the FCMA. The Secretary is authorized to pay the actual expenses of the members of such committees and panels.

1. Scientific and Statistical Committee

The Scientific and Statistical Committee provides senior level scientific and technical advice and counsel to the Regional Council on the development of fishery management policy, the preparation of Fishery Management Plans, their review prior to submission to the Secretary, and their effectiveness once in operation. The Committee will aid the Council in identifying scientific resources available for the development of plans, establishing the goals and objectives of plans and the criteria for judging plan effectiveness.

The members of the Committee and a chairman will be appointed by the Council. The membership should be multidisciplinary, including both biological and social scientists from the Federal, State, and private scientific community who are knowledgeable about the fisheries to be managed. The size of the Committee is discretionary within the resources budgeted to the particular Council. The committee will meet in the region of Council jurisdiction with the approval of the Chairman of the Council. No staff is assigned to this Committee but staff support may be requested from the Chairman of the Council or the Executive Director.

Note: Committee and advisory panel members will be compensated for actual expenses only.

social and other scientific information as is relevant to such Council's development or amendment of any fishery management plan. Further, the Council shall establish such other advisory panels as are necessary or appropriate to assist it in carrying out its functions under the FMA. The Secretary is authorized to pay the actual expenses of the members of such committees and panels.

1. Scientific and Statistical Committee

The Scientific and Statistical Committee provides senior level scientific and technical advice and counsel to the National Council on the development of fishery management policy, the preparation of fishery management plans, their review prior to submission to the Secretary, and their effectiveness once in operation. The Committee will aid the Council in identifying scientific resources available for the development of plans, establishing the goals and objectives of plans and the criteria for including plan effectiveness.

The members of the Committee and a chairman will be appointed by the Council. The membership should be multidisciplinary, including both biological and social scientists from the Federal, State, and private scientific community who are knowledgeable about the fisheries to be managed. The size of the Committee is discretionary within the resources budgeted to the particular Council. The committee will meet in the region of Council jurisdiction with the approval of the Chairman of the Council. No staff is assigned to this Committee but staff support may be requested from the Chairman of the Council or the Executive Director.

Local Committee and advisory panel members will be compensated for actual expenses only.

FMCA - Sec. 302(f)(7)(D)

(D) the actual expenses of the members of the committees and panels established under subsection (g); and
