

Draft SSC Report October 2021

C4 BSAI Pacific cod trawl CV LAPP

C4 BSAI Trawl CV Pacific Cod LAPP

- The SSC ***finds*** the document sufficient to inform decision making by the Council at final action
 - The SSC appreciates the Council's identification of a PPA to focus the analysis
 - The SSC appreciates the analysts' thorough, rapid response to June comments
- The SSC ***suggests*** the Council consider
 - Available experience does not provide evidence that layering considerable harvest quota allocations on top of processor-centered cooperatives will result in an appropriately strong market power mitigation measure.
 - May adversely impact vessels without existing processor relationships
 - Identifying the measures on which this LAPP will be evaluated and developing a collection program for the data necessary to populate metrics the Council and NFMS staff identify for quantifying those measures.
