

**C-4 BSAI Crab Partial Offload**  
**Council Motion**  
**June 7, 2019**

The Council adopts the following purpose and need statement and alternatives for analysis. Additions to the purpose and need are shown in **bold** and underline and deletions are shown in ~~striketrough~~. The Council recommends the analysis be released for public review. The Preliminary Preferred Alternative is indicated in **bold**.

**Purpose and Need Statement:**

*The purpose of this action is to allow vessels participating in the Bering Sea and Aleutian Islands Crab Rationalization (CR) Program to make partial deliveries of crab and then continue fishing before fully offloading all harvested crab. This action would ~~be to~~ remove Federal regulations that prohibit the continuation of a fishing trip subsequent to a partial offload of crab in the CR program. The need for this action is to provide operational flexibility to vessels to conduct their business in an ~~the safest and economically~~ efficient manner, **in particular** ~~and~~ when emergencies or special circumstances arise, while also ensuring proper catch accounting.*

Alternative 1 (No Action) – Status quo is maintained. Vessels are prohibited from resuming fishing for CR crab on board a vessel once a landing has commenced and until all CR crab are landed, unless fishing in the Western Aleutian Islands golden king crab fishery.

**Alternative 2 – Remove the prohibition on resuming fishing for CR crab on board a vessel once a landing has commenced and until all CR crab are landed. This will allow vessels to make partial deliveries of CR crab and then continue fishing before fully offloading all harvested crab.**

Option: In the event of a partial offload within a fishing trip, only entire tank crab contents may be offloaded. (Any tank started for offload must be fully offloaded).
