

DRAFT  
JOINT STATEMENT OF PRINCIPLES  
BETWEEN  
NORTH PACIFIC FISHERY MANAGEMENT COUNCIL (NPFMC)  
ANCHORAGE, ALASKA  
and  
ALASKA BOARD OF FISHERIES (BOF)  
JUNEAU, ALASKA  
ON THE  
MANAGEMENT OF DOMESTIC KING CRAB FISHERIES  
IN THE BERING SEA AND ALEUTIANS

Recognizing that NPFMC has a legal responsibility for reviewing and recommending to the Secretary of Commerce measures for the conservation and management of the fisheries of the Arctic Ocean, Bering Sea, and Pacific Ocean seaward of Alaska, with particular emphasis on the consistency of those measures with the National Standards of the Magnuson Fishery Conservation and Management Act (Magnuson Act); and

Recognizing that State and Federal governmental agencies are limited in fiscal resources, and that the optimal use of these monies for North Pacific fisheries management, research, and enforcement occurs through a clear definition of agency roles and division of responsibilities, thus avoiding unnecessary duplication; and

Recognizing that the State of Alaska has for more than two decades exercised effective control over domestic king crab fisheries both within and without its territorial waters. The State system centers around BOF for policy and regulations. BOF's regulatory system provides for extensive public input; is sufficiently structured to insure annual revisions; is flexible enough to accommodate resource and resource utilization "emergencies;" and is understood and familiar to the users of North Pacific fisheries resources. Further, there exists a substantial investment by the State in facilities, communications and information systems, vessels and other equipment, coupled with a cadre of experienced personnel capable of carrying out extensive management, research, and enforcement programs to monitor the conduct of the fisheries and the status of the resources.

Therefore, NPFMC and BOF enter into this Joint Statement of Principles, defining the roles of both organizations, in order to achieve the most effective and efficient management of domestic king crab fisheries in the Bering Sea and Aleutians.

#### I. Applicable Fisheries

This Joint Statement of Principles applies only to the domestic fishery for king crab (all members of genera Paralithodes and Lithodes) in the Bering Sea, Bristol Bay, Adak, and Dutch Harbor areas, also known as State of Alaska king crab statistical areas Q, T, R, and O. This fishery is hereinafter referred to as "the fishery."

## II. Duration of Agreement

Recognizing that NPFMC is currently preparing a Fishery Management Plan (FMP) for the fishery, this agreement shall remain in effect until that FMP is implemented by the Secretary of Commerce. At that time the agreement shall be reviewed by both NPFMC and the BOF and revised as necessary and as they may agree so that it will conform with the then existing situation.

## III. NPFMC and BOF shall undertake the following activities:

1. NPFMC and BOF shall adopt the framework developed and approved by both organizations in April and May, 1981 to govern management of the fishery, prescribing objectives, standards, and measures found to be necessary for the fishery's effective management. These objectives, standards, and measures are consistent with the national standards of the Magnuson Act and with the laws of the State of Alaska; and do not discriminate between residents and non-residents of the State of Alaska.
2. The framework shall be implemented through regulations adopted by BOF in accordance with the laws of the State of Alaska, which shall be consistent with the objectives, standards, and measures prescribed in the framework. Before taking final action on any regulation governing the fishery, BOF shall make readily available in

written form to all persons interested in the fishery for a period of at least thirty (30) days, the reports and data received by BOF upon which the proposed regulation is based; shall afford all such persons the opportunity to submit written and oral comments to BOF on the proposed regulation during that period; and shall, upon the request of NPFMC, meet with NPFMC or its representatives to discuss the proposed regulation. Before any BOF regulation governing the fishery goes into effect, BOF shall issue a written statement explaining the basis for the regulation. The preceding provisions of this paragraph shall not apply to emergency regulations.

3. NPFMC and BOF shall meet jointly at least once every calendar year to consider management of the fishery and discuss the need for amendment of the framework or any regulations governing the fishery. NPFMC and BOF or their designated representatives shall also meet jointly to consider management of the fishery at the request of either NPFMC or BOF. All persons and agencies interested in the fishery shall have the opportunity to submit written and oral comments and reports on management of the fishery to NPFMC and BOF at these meetings. In preparation for the mandatory annual joint meeting provided for in the first sentence of this paragraph, representatives of NPFMC and BOF shall hold a public hearing in the State of Washington at which all persons and agencies interested in the fishery shall be afforded the same opportunity to comment on management of the fishery that they would have at the meeting itself.

4. The Alaska Department of Fish and Game (ADF&G) shall have primary responsibility for developing the information upon which regulations governing the fishery are to be based, and for implementing these regulations through monitoring of the fishery and development of in-season management measures. NPFMC and BOF shall encourage ADF&G, in carrying out this responsibility, to consult actively with the National Marine Fisheries Service and the fishery management agencies of other states, in order to prevent duplication of research and management effort and to make optimum use of the resources available for management of the fishery.

5. NPFMC and BOF shall resolve conflicts on the framework and implementing regulations through all appropriate means.
