

MEMORANDUM

TO: Council, SSC, and AP members
FROM: Jim H. Branson *CP*
Executive Director
DATE: September 21, 1981
SUBJECT: Foreign permit applications for 1982

ACTION REQUIRED

Review permit applications from vessels with serious violations in 1981; recommend approval or disapproval.

BACKGROUND

Fifty Korean and 129 Japanese 1982 permit applications were received and checked for serious violations committed during 1981. (According to Council policy, any violation resulting in a fine of \$3,000 or more is termed a "serious violation.") Violations in prior years for vessels which received 1981 permits are not listed here, as those violations were taken into consideration before 1981 permits were recommended.

The Korean vessel NO. 305 JINAM (KS-82-0105) was seized in September 1981 for mislogging. The vessel is currently enroute to Kodiak and the case is pending.

Last December the Council ^{*recommended*} denied a 1981 permit to the Japanese longliner RYUHO MARU NO. 38 (JA-82-0557) because settlement was pending on an October 1980 seizure for mislogging. That case remains unresolved. The same vessel was also seized in December 1979 for mislogging and failure to properly return prohibited species. That case settled for \$215,000 and a five-week permit suspension.

The DAIKICHI MARU NO. 38 (JA-82-0494) was seized in April 1981 for mislogging. The case settled for \$550,000 and a six-month permit suspension. Also seized for mislogging in April 1981 was the DAIRIN MARU NO. 28 (JA-82-0524). Settlement on this case is pending. The YAMASAN MARU NO. 85 (JA-82-0410) was seized in June 1981 for mislogging; settlement is pending. In August 1981 the YURYO MARU NO. 8 (JA-82-0463) and the FUKUI MARU No. 8 (JA-82-0542) were seized for mislogging. Settlement is pending for both cases.

Copies of vessel identification forms for the subject vessels are included as D-5(a).

No joint-venture permit requests have been submitted by the Koreans as of this date.

Permit Review Committee

September 24, 1981

The Permit Review Committee met at 5:00 p.m. on Thursday, September 24, 1981. Jim Branson, Joe Kurtz, Ron Naab, Jim Brooks, Pat Travers, Chris Dawson, Clarence Pautzke, and Peggy McCalment attended.

The Committee considered the Japanese permit requests for vessels with violations in 1981 as described in item D-5 of the September agenda books. The two Korean vessels listed in D-5 have been found innocent of the charges and released.

The Council's posture has been to make no recommendation for approval or disapproval for cases which have been settled and fines and/or permit sanctions levied.

In December 1980, the Permit Review Committee recommended denial of a 1981 permit to the RYUHO MARU NO. 38, whose case on an October 1980 seizure for mislogging was at that time unsettled. The case remains unsettled, and because the vessel also was seized in December 1979 for mislogging, the Permit Review Committee recommended that no permit be granted until the October 1980 case is settled.

For the four vessels whose cases remain unresolved at this time (DAIRIN MARU NO. 28, YAMASAN MARU NO. 85, YURYO MARU NO. 8, and FUKUI MARU NO. 8) the Permit Review Committee suggested that the Council make no recommendation for approval or disapproval.

The Permit Review Committee recommended approval of a permit for DAIKICHI MARU NO. 38, JA-82-0494.
