

General Priority	Management Objectives	Recent, Current, Ongoing, Pending Activity	2017				2018				Cumulative Management Actions/Outcomes																																		
			Feb	Apr	Jun	Oct	Dec	Feb	Apr	Jun		Oct	Dec																																
1. Prevent Overfishing (Maintain Sustainable Harvest)	1. Adopt conservative harvest levels for multi-species and single species fisheries and specify optimum yield.	Ongoing - SAFE and Annual specifications											FMP amendments related to this goal statement <table border="1"> <tr> <td>105</td> <td>BSAI</td> <td>2014</td> <td>Provided flexibility for flatfish specifications</td> </tr> <tr> <td>100/91</td> <td>BSAI/GOA</td> <td>2014</td> <td>Included grenadiers in the Ecosystem Component category</td> </tr> <tr> <td>86/76</td> <td>BSAI/GOA</td> <td>2012</td> <td>Restructured Observer Program to reduce statistical bias</td> </tr> <tr> <td>95/87</td> <td>BSAI/GOA</td> <td>2010</td> <td>Incorporated ACL requirements, Move "other species" to target category, Create Ecosystem Component category</td> </tr> <tr> <td>79</td> <td>GOA</td> <td>2008</td> <td>OFL/ABC process for "other species"</td> </tr> <tr> <td>69</td> <td>GOA</td> <td>2006</td> <td>Established TAC process for "other species"</td> </tr> <tr> <td>63</td> <td>GOA</td> <td>2004</td> <td>Moved skates to target category</td> </tr> <tr> <td>48/48</td> <td>BSAI/GOA</td> <td>2004</td> <td>Established current harvest specifications process</td> </tr> </table>	105	BSAI	2014	Provided flexibility for flatfish specifications	100/91	BSAI/GOA	2014	Included grenadiers in the Ecosystem Component category	86/76	BSAI/GOA	2012	Restructured Observer Program to reduce statistical bias	95/87	BSAI/GOA	2010	Incorporated ACL requirements, Move "other species" to target category, Create Ecosystem Component category	79	GOA	2008	OFL/ABC process for "other species"	69	GOA	2006	Established TAC process for "other species"	63	GOA	2004	Moved skates to target category	48/48	BSAI/GOA	2004	Established current harvest specifications process
	105	BSAI	2014	Provided flexibility for flatfish specifications																																									
	100/91	BSAI/GOA	2014	Included grenadiers in the Ecosystem Component category																																									
	86/76	BSAI/GOA	2012	Restructured Observer Program to reduce statistical bias																																									
	95/87	BSAI/GOA	2010	Incorporated ACL requirements, Move "other species" to target category, Create Ecosystem Component category																																									
79	GOA	2008	OFL/ABC process for "other species"																																										
69	GOA	2006	Established TAC process for "other species"																																										
63	GOA	2004	Moved skates to target category																																										
48/48	BSAI/GOA	2004	Established current harvest specifications process																																										
2. Continue to use the optimum yield caps for the BSAI and GOA groundfish fisheries.	Ongoing - Annual specifications																																												
3. Provide for adaptive management by continuing to specify optimum yield as a range.	Ongoing - Annual specifications																																												
4. Provide for periodic reviews of the adequacy of F ₄₀ and adopt improvements, as appropriate.	Ongoing - AFSC responds to CIE reviews as part of specs process																																												
5. Continue to improve the management of species through species categories.	2009 - BSAI skates TAC breakout 2010 - Ecosystem component created 2014 - Grenadiers to EC 2015 -Working paper on uncertainty in control rules tasked																																												
	2015 -BSIERP MSE modeling underway																																												
	Ongoing – Spatial management policy guides species complex and subarea considerations																																												
	Ongoing - Squid to EC																																												
2. Promote Sustainable Fisheries and Communities	6. Promote conservation while providing for optimum yield in terms of the greatest overall benefit to the nation with particular reference to food production, and sustainable opportunities for recreational, subsistence, and commercial fishing participants and fishing communities. 7. Promote management measures that, while meeting conservation objectives, are also designed to avoid significant disruption of existing social and economic structures. 8. Promote fair and equitable allocation of identified available resources in a manner such that no particular sector, group or entity acquires an excessive share of the privileges. 9. Promote increased safety at sea.	These considerations are applied to all management actions.										Regulatory amendments related to this goal statement <ul style="list-style-type: none"> Annual specifications for setting harvest levels Other management actions related to this goal statement <ul style="list-style-type: none"> Regular Center for International Experts reviews for stock assessments and harvest strategies Ongoing work on accounting for uncertainty in control rules Council policy and ongoing discussion of spatial management for stocks 																																	
												These objectives represent standards that either separately or in combination apply to virtually all of the discussion, deliberation, and action taken by the Council.																																	

General Priority	Management Objectives	Recent, Current, Ongoing, Pending Activity	2017				2018				Cumulative Management Actions/Outcomes			
			Feb	Apr	Jun	Oct	Dec	Feb	Apr	Jun		Oct	Dec	
3. Preserve Food Web (Ecosystem Approach)	10. Develop indices of ecosystem health as targets for management.	2015 - GOA Ecosystem Report Card												
		Ongoing - Ecosystem SAFEs, report cards presented annually												
		Pending – BS FEP will include ecosystem indicators and triggers												
		EFH 5 year Review												
	11. Improve the procedure to adjust acceptable biological catch levels as necessary to account for uncertainty and ecosystem factors.	Pending - Working paper on uncertainty in control rules - awaiting NS Guidelines revisions												
		Ongoing - BSIERP MSE modeling												
	12. Continue to protect the integrity of the food web through limits on harvest of forage species.	Ongoing - Herring PSC limits specified annually												
		13. Incorporate ecosystem-based considerations into fishery management decisions, as appropriate.	2007 - FEP and brochure published 2011 - AI ecosystem assessment developed 2014 – Ecosystem Vision Statement 2015 - BS FEP											
Ongoing – Ecosystem SAFE														

- Other management actions related to this goal statement**
- Uncertainty and ecosystem considerations taken into account during stock assessment and harvest specifications
 - Ecosystem indices reported and assessed in annual ecosystem SAFE report
 - Adoption of the Aleutian Islands Fishery Ecosystem Plan, and development of a Bering Sea Fishery Ecosystem Plan
 - Development of ecosystem synthesis reports for the Bering Sea and the Aleutian Islands ecosystem areas, and ongoing development of report for the Gulf of Alaska
 - Adoption, as Council policy, of an ecosystem vision statement

General Priority	Management Objectives	Recent, Current, Ongoing, Pending Activity	2017				2018				Cumulative Management Actions/Outcomes																																												
			Feb	Apr	Jun	Oct	Dec	Feb	Apr	Jun		Oct	Dec																																										
4. Manage Incidental Catch and Reduce Bycatch and Waste	14. Continue and improve current incidental catch and bycatch management program.	2011 - National Bycatch Report 2013 - Restructured Obs. Program 2015 - Bycatch limits for BS Chinook revised - pending rulemaking Ongoing - Halibut Management Framework	[Activity tracking grid]												<p>FMP amendments related to this goal statement</p> <table border="1"> <tr> <td>110</td> <td>BSAI</td> <td>2016</td> <td>● Established Chinook and chum salmon PSC avoidance measures</td> </tr> <tr> <td>111</td> <td>BSAI</td> <td>2016</td> <td>● Reduced PSC limits for halibut</td> </tr> <tr> <td>79</td> <td>BSAI</td> <td>2014</td> <td>● Established groundfish retention standard</td> </tr> <tr> <td>84/91</td> <td>BSAI/GOA</td> <td>2014</td> <td>● Established Bering Sea Chinook salmon bycatch restrictions</td> </tr> <tr> <td>94/89</td> <td>BSAI/GOA</td> <td>2012</td> <td>● Established trawl sweep elevation requirement in the flatfish fisheries</td> </tr> <tr> <td>89</td> <td>GOA</td> <td>2010</td> <td>● Established GOA area closures to reduce tanner crab bycatch</td> </tr> <tr> <td>93/97</td> <td>BSAI/GOA</td> <td>2008</td> <td>● Established PSC limits for Chinook salmon in the GOA trawl pollock and non-</td> </tr> <tr> <td>95</td> <td>GOA</td> <td>2006</td> <td>● Reduced PSC limits for GOA halibut</td> </tr> <tr> <td>86/76</td> <td>BSAI/GOA</td> <td>2004</td> <td>● Restructured observer program to reduce statistical bias</td> </tr> <tr> <td>103</td> <td>BSAI/GOA</td> <td>2004</td> <td>● Prohibited Pacific cod fishing in Pribilof Islands Habitat Conservation Zone</td> </tr> </table> <p>Regulatory amendments related to this goal statement</p> <ul style="list-style-type: none"> ● Annual specifications for setting prohibited species limits ● Revisions to MRAs ● Revision to regulations for prohibited species donation program and fishmeal <p>Other management actions related to this goal statement</p> <ul style="list-style-type: none"> ● Upcoming discussion paper on BSAI crab bycatch ● Council encourages research through annual research priorities ● NMFS and observer program work on improving statistical methods for bycatch accounting (as part of National Bycatch Report initiative) ● Development of a halibut management framework 	110	BSAI	2016	● Established Chinook and chum salmon PSC avoidance measures	111	BSAI	2016	● Reduced PSC limits for halibut	79	BSAI	2014	● Established groundfish retention standard	84/91	BSAI/GOA	2014	● Established Bering Sea Chinook salmon bycatch restrictions	94/89	BSAI/GOA	2012	● Established trawl sweep elevation requirement in the flatfish fisheries	89	GOA	2010	● Established GOA area closures to reduce tanner crab bycatch	93/97	BSAI/GOA	2008	● Established PSC limits for Chinook salmon in the GOA trawl pollock and non-	95	GOA	2006	● Reduced PSC limits for GOA halibut	86/76	BSAI/GOA	2004	● Restructured observer program to reduce statistical bias	103	BSAI/GOA	2004	● Prohibited Pacific cod fishing in Pribilof Islands Habitat Conservation Zone
		110	BSAI	2016	● Established Chinook and chum salmon PSC avoidance measures																																																		
	111	BSAI	2016	● Reduced PSC limits for halibut																																																			
	79	BSAI	2014	● Established groundfish retention standard																																																			
	84/91	BSAI/GOA	2014	● Established Bering Sea Chinook salmon bycatch restrictions																																																			
	94/89	BSAI/GOA	2012	● Established trawl sweep elevation requirement in the flatfish fisheries																																																			
	89	GOA	2010	● Established GOA area closures to reduce tanner crab bycatch																																																			
	93/97	BSAI/GOA	2008	● Established PSC limits for Chinook salmon in the GOA trawl pollock and non-																																																			
	95	GOA	2006	● Reduced PSC limits for GOA halibut																																																			
	86/76	BSAI/GOA	2004	● Restructured observer program to reduce statistical bias																																																			
103	BSAI/GOA	2004	● Prohibited Pacific cod fishing in Pribilof Islands Habitat Conservation Zone																																																				
Ongoing - Review of Obs. Annual Deployment Plan	[Activity tracking grid]																																																						
15. Develop incentive programs for bycatch reduction including the development of mechanisms to facilitate the formation of bycatch pools, vessel bycatch allowances, or other bycatch incentive systems.	Ongoing - Halibut Management Framework	[Activity tracking grid]																																																					
	Ongoing - Halibut deck sorting EFP	[Activity tracking grid]																																																					
16. Encourage research programs to evaluate current population estimates for non-target species with a view to setting appropriate bycatch limits, as information becomes available.	Ongoing – Included in research priorities Ongoing - Use of Three River Index Ongoing - Salmon genetics work Ongoing – Forage fish included in Ecosystem SAFE Ongoing – Halibut Management Framework	[Activity tracking grid]																																																					
	2007 - Partially addressed by arrowtooth MRA analyses for GOA 2010 - Partially addressed by arrowtooth MRA analyses for BSAI Ongoing - Halibut management framework Ongoing - Partially addressed in rockfish program Ongoing - Partially addressed in Council's Spatial Mgmt Policy	[Activity tracking grid]																																																					
	2007 - GOA area closures to reduce bairdi crab bycatch 2009 - Trawl sweep elevation requirement in the flatfish fisheries Ongoing – Halibut Management Framework	[Activity tracking grid]																																																					
	2011 - National Bycatch Report 2013 - Restructured Obs. Program Ongoing – Halibut Management Framework Ongoing – Review of Obs. Annual Deployment Plan 2016 - Alternative Halibut DMR calculation methods	[Activity tracking grid]																																																					
18. Continue to manage incidental catch and bycatch through seasonal distribution of total allowable catch and geographical gear restrictions.	2009 - Partially addressed in BS Chinook bycatch EIS 2010 - Kodiak Tanner crab closures 2011, 2013 - GOA pollock and non-pollock Chinook PSC limits 2012 - GOA halibut PSC limit reduction 2014 - Template for BSAI crab bycatch limits initiated 2015 - Partially addressed in BS salmon bycatch analyses 2015 - Bycatch limits for BS Chinook revised - pending rulemaking Ongoing - revised PSC limits for BS Chinook	[Activity tracking grid]																																																					
	2015 - Halibut abundance-based PSC interagency paper	[Activity tracking grid]																																																					
19. Continue to account for bycatch mortality in total allowable catch accounting and improve the accuracy of mortality assessments for target, prohibited species catch, and noncommercial species.	Ongoing - bycatch management through PSC limits and other actions Ongoing – Halibut Management Framework	[Activity tracking grid]																																																					
		[Activity tracking grid]																																																					
20. Control the bycatch of prohibited species through prohibited species catch limits or other appropriate measures.		[Activity tracking grid]																																																					
		[Activity tracking grid]																																																					
21. Reduce waste to biologically and socially acceptable levels.		[Activity tracking grid]																																																					

General Priority	Management Objectives	Recent, Current, Ongoing, Pending Activity	2017					2018					Cumulative Management Actions/Outcomes																						
			Feb	Apr	Jun	Oct	Dec	Feb	Apr	Jun	Oct	Dec																							
5. Reduce and Avoid Impacts to Seabirds and Marine Mammals	22. Continue to cooperate with U.S. Fish and Wildlife Service (USFWS) to protect ESA-listed species, and if appropriate and practicable, other seabird species.	2008 - Avoidance measures in area 4E 2015 - Re-consultation for short-tailed albatross													FMP amendments related to this goal statement <table border="1"> <tr> <td>107</td> <td>BSAI</td> <td>2014</td> <td> <ul style="list-style-type: none"> Walrus protection and transit corridors around Round Island and Cape Pierce </td> </tr> </table> Regulatory amendments related to this goal statement <ul style="list-style-type: none"> Revisions to seabird avoidance measures, including in Area 4E Revisions to Steller sea lion closures for pollock and cod fisheries in the GOA Revisions to Steller sea lion protection measures for Atka mackerel, Pacific cod, and pollock fisheries in the Aleutian Islands Designation of critical habitat for Cook Inlet beluga whale Other management actions related to this goal statement <ul style="list-style-type: none"> ESA consultations on fishery impacts on listed seabirds and marine mammals Council receives protected species report at each meeting, monitoring issues with seabirds and marine mammals Reconsideration of Steller sea lion closures in 2014 biological opinion and 2014 EIS 	107	BSAI	2014	<ul style="list-style-type: none"> Walrus protection and transit corridors around Round Island and Cape Pierce 																
	107	BSAI	2014	<ul style="list-style-type: none"> Walrus protection and transit corridors around Round Island and Cape Pierce 																															
	23. Maintain or adjust current protection measures as appropriate to avoid jeopardy of extinction or adverse modification to critical habitat for ESA-listed Steller sea lions.	Ongoing – SSL EIS regs in place 2014 – Updated SSL BiOp 2011 - SSL BiOp Pending - SSL Critical Habitat proposed rule																																	
	24. Encourage programs to review status of endangered or threatened marine mammal stocks and fishing interactions and develop fishery management measures as appropriate.	Ongoing - Monitoring through the Protected Species Report																																	
25. Continue to cooperate with NMFS and USFWS to protect ESA-listed marine mammal species, and if appropriate and practicable, other marine mammal species.	Ongoing - Monitoring through the Protected Species Report																																		
6. Reduce and Avoid Impacts to Habitat	26. Review and evaluate efficacy of existing habitat protection measures for managed species.	2012 - Council's EFH Consultation Policy 2014 - Partially addressed in crab bycatch limits disc. paper 2016 - EFH 5 year review, fishing effects model													FMP amendments related to this goal statement <table border="1"> <tr> <td>104</td> <td>BSAI</td> <td>2015</td> <td> <ul style="list-style-type: none"> Designated skate nurseries in Bering Sea as HAPC </td> </tr> <tr> <td>98/90</td> <td>BSAI/GOA</td> <td>2012</td> <td> <ul style="list-style-type: none"> Updated EFH information with findings from the 2010 EFH 5-year review </td> </tr> <tr> <td>94/89</td> <td>BSAI/GOA</td> <td>2010</td> <td> <ul style="list-style-type: none"> Established trawl sweep elevation requirement in the flatfish fisheries </td> </tr> <tr> <td>89</td> <td>BSAI</td> <td>2008</td> <td> <ul style="list-style-type: none"> Established Bering Sea Habitat Conservation area closures for non-pelagic trawling </td> </tr> <tr> <td>78/73 65/65</td> <td>BSAI/GOA</td> <td>2006</td> <td> <ul style="list-style-type: none"> HAPC and EFH amendments, and associated fishery area closures in the GOA </td> </tr> </table> Other management actions related to this goal statement <ul style="list-style-type: none"> Discussion of protected areas for Bering Sea canyons Discussion paper resulting from EFH 5-year review to look at groundfish impacts on crab EFH (especially red king crab in southwestern Bristol Bay) Ongoing 2015 EFH 5-year review, including updates to fishing effects model and EFH descriptions Discussion of a Northern Bering Sea Research Area Research Plan (subsequently tabled) Council discussion regarding nominating Alaska MPAs to national MPA center register (tabled) Council encourages research through annual research priorities 	104	BSAI	2015	<ul style="list-style-type: none"> Designated skate nurseries in Bering Sea as HAPC 	98/90	BSAI/GOA	2012	<ul style="list-style-type: none"> Updated EFH information with findings from the 2010 EFH 5-year review 	94/89	BSAI/GOA	2010	<ul style="list-style-type: none"> Established trawl sweep elevation requirement in the flatfish fisheries 	89	BSAI	2008	<ul style="list-style-type: none"> Established Bering Sea Habitat Conservation area closures for non-pelagic trawling 	78/73 65/65	BSAI/GOA	2006	<ul style="list-style-type: none"> HAPC and EFH amendments, and associated fishery area closures in the GOA

4. Manage Incidental Catch and Reduce Bycatch and Waste	14. Continue and improve current incidental catch and bycatch management program.	2011 - National Bycatch Report 2013 - Restructured Obs. Program 2015 - Bycatch limits for BS Chinook revised - pending rulemaking Ongoing - Halibut Management Framework	[Blank]																																																
		Ongoing - Review of Obs. Annual Deployment Plan	[Blank]																																																
	15. Develop incentive programs for bycatch reduction including the development of mechanisms to facilitate the formation of bycatch pools, vessel bycatch allowances, or other bycatch incentive systems.	Ongoing - Halibut Management Framework	[Blank]																																																
		Ongoing - Halibut deck sorting EFP	[Blank]																																																
	16. Encourage research programs to evaluate current population estimates for non-target species with a view to setting appropriate bycatch limits, as information becomes available.	Ongoing – Included in research priorities Ongoing - Use of Three River Index Ongoing - Salmon genetics work Ongoing – Forage fish included in Ecosystem SAFE Ongoing – Halibut Management Framework	[Blank]																																																
		17. Continue program to reduce discards by developing management measures that encourage the use of gear and fishing techniques that reduce bycatch which includes economic discards.	2007 - Partially addressed by arrowtooth MRA analyses for GOA 2010 - Partially addressed by arrowtooth MRA analyses for BSAI Ongoing - Halibut management framework Ongoing - Partially addressed in rockfish program Ongoing - Partially addressed in Council's Spatial Mgmt Policy	[Blank]																																															
			18. Continue to manage incidental catch and bycatch through seasonal distribution of total allowable catch and geographical gear restrictions.	2007 - GOA area closures to reduce bairdi crab bycatch 2009 - Trawl sweep elevation requirement in the flatfish fisheries Ongoing – Halibut Management Framework	[Blank]																																														
	19. Continue to account for bycatch mortality in total allowable catch accounting and improve the accuracy of mortality assessments for target, prohibited species catch, and noncommercial species.	2011 - National Bycatch Report 2013 - Restructured Obs. Program Ongoing – Halibut Management Framework	[Blank]																																																
		Ongoing – Review of Obs. Annual Deployment Plan	[Blank]																																																
		2016 - Alternative Halibut DMR calculation methods	[Blank]																																																
20. Control the bycatch of prohibited species through prohibited species catch limits or other appropriate measures.	2009 - Partially addressed in BS Chinook bycatch EIS 2010 - Kodiak Tanner crab closures 2011, 2013 - GOA pollock and non-pollock Chinook PSC limits 2012 - GOA halibut PSC limit reduction 2014 - Template for BSAI crab bycatch limits initiated 2015 - Partially addressed in BS salmon bycatch analyses 2015 - Bycatch limits for BS Chinook revised - pending rulemaking Ongoing - revised PSC limits for BS Chinook	[Blank]																																																	
	2015 - Halibut abundance-based PSC interagency paper	[Blank]																																																	
21. Reduce waste to biologically and socially acceptable levels.	Ongoing - bycatch management through PSC limits and other actions Ongoing – Halibut Management Framework	[Blank]																																																	
											FMP amendments related to this goal statement <table border="1"> <tr> <td>110</td> <td>BSAI</td> <td>2016</td> <td>● Established Chinook and chum salmon PSC avoidance measures</td> </tr> <tr> <td>111</td> <td>BSAI</td> <td>2016</td> <td>● Reduced PSC limits for halibut</td> </tr> <tr> <td>79</td> <td>BSAI</td> <td>2014</td> <td>● Established groundfish retention standard</td> </tr> <tr> <td>84/91</td> <td>BSAI/GOA</td> <td>2014</td> <td>● Established Bering Sea Chinook salmon bycatch restrictions</td> </tr> <tr> <td>94/89</td> <td>BSAI/GOA</td> <td>2012</td> <td>● Established trawl sweep elevation requirement in the flatfish fisheries</td> </tr> <tr> <td>89</td> <td>GOA</td> <td>2010</td> <td>● Established GOA area closures to reduce tanner crab bycatch</td> </tr> <tr> <td>93/97</td> <td>BSAI/GOA</td> <td>2008</td> <td>● Established PSC limits for Chinook salmon in the GOA trawl pollock and non-</td> </tr> <tr> <td>95</td> <td>GOA</td> <td>2006</td> <td>● Reduced PSC limits for GOA halibut</td> </tr> <tr> <td>86/76</td> <td>BSAI/GOA</td> <td>2004</td> <td>● Restructured observer program to reduce statistical bias</td> </tr> <tr> <td>103</td> <td>BSAI/GOA</td> <td>2004</td> <td>● Prohibited Pacific cod fishing in Pribilof Islands Habitat Conservation Zone</td> </tr> </table>	110	BSAI	2016	● Established Chinook and chum salmon PSC avoidance measures	111	BSAI	2016	● Reduced PSC limits for halibut	79	BSAI	2014	● Established groundfish retention standard	84/91	BSAI/GOA	2014	● Established Bering Sea Chinook salmon bycatch restrictions	94/89	BSAI/GOA	2012	● Established trawl sweep elevation requirement in the flatfish fisheries	89	GOA	2010	● Established GOA area closures to reduce tanner crab bycatch	93/97	BSAI/GOA	2008	● Established PSC limits for Chinook salmon in the GOA trawl pollock and non-	95	GOA	2006	● Reduced PSC limits for GOA halibut	86/76	BSAI/GOA	2004	● Restructured observer program to reduce statistical bias	103	BSAI/GOA	2004	● Prohibited Pacific cod fishing in Pribilof Islands Habitat Conservation Zone
110	BSAI	2016	● Established Chinook and chum salmon PSC avoidance measures																																																
111	BSAI	2016	● Reduced PSC limits for halibut																																																
79	BSAI	2014	● Established groundfish retention standard																																																
84/91	BSAI/GOA	2014	● Established Bering Sea Chinook salmon bycatch restrictions																																																
94/89	BSAI/GOA	2012	● Established trawl sweep elevation requirement in the flatfish fisheries																																																
89	GOA	2010	● Established GOA area closures to reduce tanner crab bycatch																																																
93/97	BSAI/GOA	2008	● Established PSC limits for Chinook salmon in the GOA trawl pollock and non-																																																
95	GOA	2006	● Reduced PSC limits for GOA halibut																																																
86/76	BSAI/GOA	2004	● Restructured observer program to reduce statistical bias																																																
103	BSAI/GOA	2004	● Prohibited Pacific cod fishing in Pribilof Islands Habitat Conservation Zone																																																
											Regulatory amendments related to this goal statement <ul style="list-style-type: none"> ● Annual specifications for setting prohibited species limits ● Revisions to MRAs ● Revision to regulations for prohibited species donation program and fishmeal 																																								
											Other management actions related to this goal statement <ul style="list-style-type: none"> ● Upcoming discussion paper on BSAI crab bycatch ● Council encourages research through annual research priorities ● NMFS and observer program work on improving statistical methods for bycatch accounting (as part of National Bycatch Report initiative) ● Development of a halibut management framework
