

C-3(a) Update Pribilof Islands Blue King Crab rebuilding plan

- 1. Select Alternative 2b as the PPA to apply the existing Pribilof Island Habitat Conservation Zone trawl closure to vessels fishing Pacific cod with pots.**

- 2. Alternative 6 should be further analyzed based on the following modifications, which are based on the AP motion, with clarifications:**
 - o Add an option to component 2:
Option 2. The trigger cap is seasonally allocated to all fisheries in aggregate. Any unused PSC will roll to the following season.**
 - a. 25 % to first quarter, 25% to second quarter, 50% to last half of year**
 - b. 50% to first half of year, 50% to last half of year**
 - c. 75% to first half of year, 25% to second half of year**

 - o Add an option that bycatch caps are in numbers of crab, where the annual cap is based on the average weight of PIBKC over the previous five years.**
