

Fisheries Bycatch

Global Issues and Creative Solutions

Announcement
29th Lowell Wakefield International Fisheries Symposium
Hilton Hotel | Anchorage, Alaska | 13–16 May 2014

The symposium will bring together fishery and social scientists, managers, fishermen, and other stakeholders from around the world to report on creative approaches to solving fishery bycatch issues. Keynotes, invited talks, and oral and poster contributions will be presented. Topics are new technologies, advancements toward full accounting of fishing mortality into harvest control rules, approaches to industry-derived solutions, incentive programs, new regulatory solutions, and studies on social and economic implications related to bycatch issues.

Gordon Kruse, Steering Committee chair

Organized by Alaska Sea Grant,
University of Alaska Fairbanks
