(a) - Projected Total Harvest

Troll Salmon

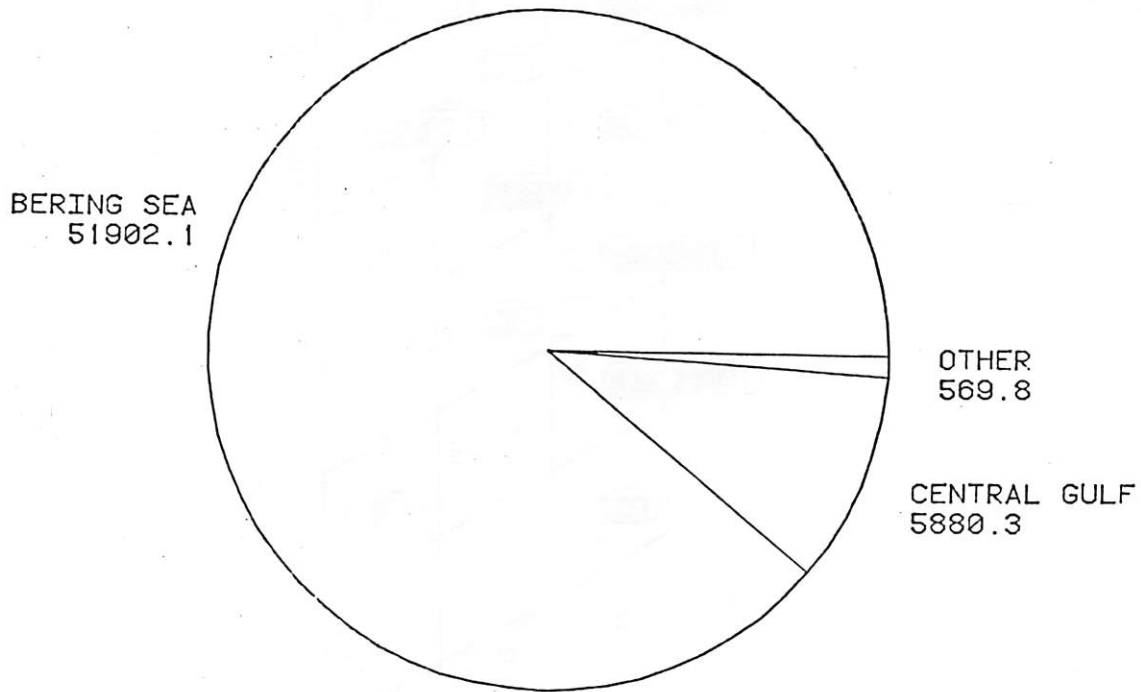

The first portion of the 1983-1984 winter fishery for chinook salmon appears to be proceeding at approximately the same rate as in the 1982-1983 season. Preliminary figures show that a total of 17,085 chinook had been reported in 1,724 landings through March 20, 1984. Total poundage landed through that date was 235,000 pounds.
