

## ERRATUM

### C1 – Analysis of Management Options for the 2C and 3A Charter Halibut Fisheries for 2021 Appendix II

Sarah Webster  
Alaska Department of Fish and Game  
December 1, 2020

This erratum updates values in the second to last column of Appendix II Table A2-1 of the document posted to the Council eAgenda as “C1 Charter Management Options Analysis”. The update revises estimates in the originally published table and increases the total removal estimate for Area 2C in that column by 0.027 Milb compared to the original table.

All other estimates in Table A2-1 and all estimates in Table A2-2 remain unchanged. The update does not reflect any changes in methodology and does not change the application of these estimates to other alternative management measures.

*Table A2-1. 2C removal estimates under status quo regulations with variable reductions in effort (no change, 10% reduction, 40% reduction, proportional reduction estimated between 2020 forecast and 2020 preliminary estimate) and estimated reduction in effort relative to 2020 forecast.*
