Minority Report

BSAI Sablefish TAC Apportionment: The minority felt that an expanded discussion paper regarding an evaluation of potential options aimed at increasing the utilization of Sablefish in the BSAI is appropriate at this time.

- ***Additional analysis is required to provide information capable of achieving an adequate response to this issue.***
- ***Regulations regarding use caps and sector allocations in the BSAI may no longer accurately reflect current industry conditions, and restrict some industry participants from increasing their harvest of otherwise non-harvested sablefish.***
- ***Employing a broader scope to examine possible actions will help avoid adverse consequences to sectors, current and future industry participants, and CDQ fisheries.***
- ***Additional analysis on potential factors impeding full utilization should also be addressed.***
