SUBJECT: Groundfish Data Monitoring

ACTION REQUIRED

Review program and funding needs.

BACKGROUND

In September the SSC recommended that a workgroup analyze program and funding needs to adequately monitor the U.S. groundfish fishery. This workgroup met in Seattle on October 22-23, 1984 and discussed the various data collection methods and the overall data program that will be required in the next few years. A report with the workgroup's recommendations will be available under this tab for SSC and then AP and Council review.
