

MINUTES OF THE PERMIT REVIEW COMMITTEE

July 24, 1980

The meeting of the Permit Review Committee was called to order by Chairman Bart Eaton at 3:30 p.m. in the Portage Room of the Anchorage Westward Hilton Hotel.

Permit applications from three countries were considered: 1 application from the West German trawler, the FRIEDRICH BUSSE, to fish for the allocation recently given to West Germany in the Bering Sea, from the division and reallocation of the fish withdrawn from the Soviet allocation; 3 permit applications from the Republic of Korea; and 15 permit applications from the Soviet Union.

Chairman Eaton asked Ron Naab if there were any violations against the FRIEDRICH BUSSE. Mr. Naab reported that there were none.

The AP had recommended requiring a commitment from the West Germans on the price for the fish they agreed to buy from U. S. processors. Mr. Collinsworth indicated that they have offered to buy a substantial quantity of processed products, have offered to utilize U. S. trainees for 30% of their crew, and to support two observers. Products from Alaska waters will be indicated as such when sold on the European market. Mr. Collinsworth expressed a desire to participate with them in good faith. No objections to approval of the West German permit were voiced, and the subcommittee recommended unconditional approval of the permit for the FRIEDRICH BUSSE.

The Republic of Korea applications were for the factory ships KYUNG YANG HO and HEUNG YANG HO and the cargo/transport vessel GAE CHEOG HO #2. Mr. Cashdollar pointed out that the ships are currently permitted to fish, and that this permit request is for a modification to support the KMIDC joint venture operations. Mike Stanley indicated that one of the ships had recently been cited, but the offense was not serious. The subcommittee recommended that the modifications to the three Korean permits be approved.

15

The 13 Soviet permit applications were from the tankers OMSK, KOMSOMOLETS UKRAINY, SLAVGOROD, and SURGUTNEFT; the patrol/cargo/supply vessels NEVER, AVEZDA TYBAKA, and SULAK, the cargo/transport vessels OSTROV SHMIDTA, OSTROV USHAKOVA, KHUDOZHNIK DEYNEKA, KUUDOZUMIK S. GERASIMOV, KYUDOZHNIK VRUBEL, SAKHALINSKIE GORY, and SIBIR; and the stern trawler 15 SYEZD PROFSOYUZOV. The vessels involved are already authorized to support Soviet vessels within the FCZ for non-joint venture operations and joint venture operations outside 12 miles. Their permits have been changed to allow them to support Soviet vessels engaged in joint venture activities anywhere these activities are authorized. The permits, and the new conditions, had been submitted to the Council for informational purposes and no action is required. As originally received it was unclear as to exactly what action was required. Assuming they were regular applications, the staff had prepared them for AP and Council review, leading to considerable extra work and debate by the AP.

After further discussion, the Committee expressed their understanding of the situation and adjourned at 4 p.m.

EMBASSY OF THE REPUBLIC

Office of Fisheries Affairs  
Bureau of Oceans and International  
Environmental and Scientific Affairs  
Department of State  
Washington, D.C. 20520

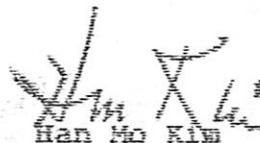

Dear Mr. Cashdollar:

In accordance with the provisions of the  
Fishery Conservation and Management Act of 1976,  
the Government of the Republic of Korea hereby  
submits three additional applications for permits  
to receive United States harvested fish from vessels  
of the United States within the Fishery Conservation  
Zone during the year 1980.

All vessels attached were permitted to  
fish for her own quota and contemplate to receive  
fish from vessels of the United States in conjunction  
with Korea-U.S. joint venture business when it is  
necessary.

Thanking you in advance for your cooperation.

Sincerely,

  
Han Mo Kim  
Fisheries Attaché

**APPLICATION FOR VESSEL PERMITS  
TO RECEIVE UNITED STATES HARVESTED  
FISH FROM VESSELS OF THE UNITED STATES**

No. \_\_\_\_\_

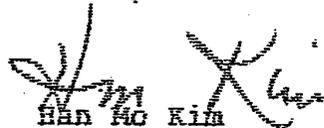

In accordance with the provisions of the Fishery Conservation and Management Act of 1976, as amended, the Government of Republic of Korea hereby submits this application for permits for vessels under its jurisdiction to receive United States harvested fish from vessels of the United States within the Fishery Conservation Zone of the United States during the year 1980.

Fishing Vessel Identification Forms will be submitted in support of this application. The fisheries, species, and amounts of United States harvested fish desired to be received by vessels of the Korean flag are as follows:

Fishery	Species	Total Tonnage Requested For Each Species (MT)
B.S.A. and	Pollock	100,000
	Pacific Cod	8,000
G.O.A.	P.O.P.	9,500
	Yellowfin Sole	1,000
	Flounders	7,200
	Atka Mackerel	6,000
	Sablefish	2,300
	Rockfish	3,500
	Squid	1,000
	Turbot	300
	Other Species	1,000

Detailed descriptions of the methods of operation proposed for each fishery requested are attached and form a part of this application.

Submitted: July 23 1980
