Jan 2022 Modeling workshop agenda

Weds, Jan 12th – Friday, Jan 14th (virtual)

GMACS topics:

- Status of merging version into a unified version
- Confirmation existing implementations give the same results with new version
- Snow crab GMACS – assist with troubleshooting
- Projection module updates
    - Test of SMBKC
    - Do current changes match Cody's needs for snow crab
- Status of NSRKC work
    - Current files from Hamachan in google drive
    - Needs to be updated to current GMACS version
    - Goal of replication of the N matrix and likelihood during workshop
- AIGKC progress
    - Confirm EAG conversion
    - Troubleshoot WAG
- Retrospective and Jittering
    - Are these set up to run
    - Need to compare retrospective to BBRKC retro done manually
    - Jittering needs to be (re)tested perhaps with SMBKC and then BBRKC
