# EDR MOTIONS

## Issue 1: EDR amendment package    Issue 2: Broader scope on EDRs

- Initiated in April 2019
- Small changes and consideration of removing GOA trawl
- Analyzed for Feb 2020 meeting
- SSC approved; Council modified P&N and alternatives

- Initiated in April 2019
- Requests staff undertake a process to consider EDR revisions more broadly
- Series of topics to consider focusing on reduce burden and improve the practical utility of data collected
- Staff should consult the SSPT, submitters and data users

# RECENT MEETINGS

## **August 2020 - First stakeholder workshop**

*Cross-cutting ideas and feedback across all 4 EDR programs*

## **September 2020 - SSPT discussion**

*Next steps for focused stakeholder discussions*

# WORKING DRAFT ALTERNATIVES

.....

Alternative 2. Smaller changes to existing EDRs (generally, under the current purpose and need statements). Make the following revisions, where needed, in the EDR sections of the crab or groundfish FMPs and in the EDR regulations. (*components not mutually exclusive*)

.....

Alternative 3. Holistic changes to EDRs (reconsider existing purpose and need statements).

Option[x]. For example, if the intention is for EDR data to more routinely inform Council decision documents, an EDR that is (relatively) consistent across fisheries may increase the utility for decision-making and analytical purposes while balancing considerations of reporting burden.

# NEXT STEPS

## **No action is necessary**

The Council may consider modifications to current EDR motions. Options/ alternatives may be added to the Jan/ Feb 2020 motion for further analysis.

- SSPT recommendations for small changes to some forms
- Analysts suggest breaking “Alt 3: Remove EDR requirements out into different programs (could address SSPT recommendations on considering P&N statements)

Status of Issue 2 motion – whether to integrate concepts, remove from tasking or remain on a separate track

- SSPT recommended a concept similar to issue 2 of considering a more standardized P&N for EDR
