To the Consul:

When I fish I eat. I'm getting hungry waiting for the permit to be issued  
to Davenny and KMIDC

This is the fattest deal any fisherman has ever been offered....

Get with it.

To Whom it may concern:

I have just bought a new trawler. I bought it with the express purpose and with the understanding that I would be able to bottom fish for Davenny and KMIDC Project.

It is unreal that the powers that be will allow hundreds of foreign fish boat to operater with in the two hundred mile conservation zone and Alaska fishermen set on the beach.

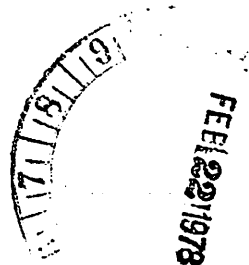

I beech you to affirmently act on the processing of the permits for the Davenny KMIDC venture.

Thank You.

North Pacific Fishing Management

I want to trawl fish

The DAREMY KMIDE gives  
me an outlet.

Give them those permits

I need to fish —
