

Tanner Crab Assessment 2022 Appendix D: Comparison Tables—All Models

William Stockhausen

07 September, 2022

Contents

Tables	3
---------------	----------

List of Tables

1	Estimated rates of natural mortality (period of elevated M is 1980-1984).	4
2	Estimated fully-selected survey catchability. The year indicates the start of the time block in which the value is used.	4
3	Estimated retained catch abundance (millions; 1965-1989).	5
4	Estimated retained catch abundance (millions; 1990+).	6
5	Estimated retained catch biomass (1,000's t; 1965-1989).	7
6	Estimated retained catch biomass (1,000's t; 1990+).	8
7	Estimated discard catch mortality (abundance) in the directed fishery (millions; 1965-1989).	8
8	Estimated discard catch mortality in abundance in the directed fishery (millions; 1990+).	9
9	Estimated discard mortality (biomass) in the directed fishery (1,000's t; 1965-1989).	9
10	Estimated discard mortality (biomass) in the directed fishery (1,000's t; 1990+).	10
11	Estimated discard catch mortality (abundance) in the snow crab fishery (millions; 1965-1989).	10
12	Estimated discard catch mortality in abundance in the snow crab fishery (millions; 1990+).	11
13	Estimated discard mortality (biomass) in the snow crab fishery (1,000's t; 1965-1989).	11
14	Estimated discard mortality (biomass) in the snow crab fishery (1,000's t; 1990+).	12
15	Estimated discard catch mortality (abundance) in the BBRKC fishery (millions; 1965-1989).	12
16	Estimated discard catch mortality in abundance in the BBRKC fishery (millions; 1990+).	13
17	Estimated discard mortality (biomass) in the BBRKC fishery (1,000's t; 1965-1989).	13
18	Estimated discard mortality (biomass) in the BBRKC fishery (1,000's t; 1990+).	14
19	Estimated discard catch mortality (abundance) in the groundfish fisheries (millions; 1965-1989).	14
20	Estimated discard catch mortality in abundance in the groundfish fisheries (millions; 1990+).	15

21	Estimated discard mortality (biomass) in the groundfish fisheries (1,000's t; 1965-1989).	15
22	Estimated discard mortality (biomass) in the groundfish fisheries (1,000's t; 1990+).	16
23	Estimated abundance in the NMFS EBS survey for females (millions; 1975-2000)	16
24	Estimated abundance in the NMFS EBS survey for females (millions; 2001+)	17
25	Estimated biomass in the NMFS EBS survey for females (1,000's t; 1975-2000)	17
26	Estimated biomass in the NMFS EBS survey for females (1,000's t; 2001+)	17
27	Estimated abundance in the NMFS EBS survey for males (millions; 1975-2000)	18
28	Estimated abundance in the NMFS EBS survey for males (millions; 2001+)	18
29	Estimated biomass in the NMFS EBS survey for males (1,000's t; 1975-2000)	18
30	Estimated biomass in the NMFS EBS survey for males (1,000's t; 2001+)	19
31	Estimated abundance in the BSFRF SBS survey for females (millions; 2001+)	19
32	Estimated biomass in the BSFRF SBS survey for females (1,000's t; 2001+)	19
33	Estimated abundance in the BSFRF SBS survey for males (millions; 2001+)	19
34	Estimated biomass in the BSFRF SBS survey for males (1,000's t; 2001+)	19
35	Estimated population abundance (millions; 1948-1990)	20
36	Estimated population abundance (millions; 1991+)	21
37	Estimated population biomass (1,000's t; 1948-1990)	22
38	Estimated population biomass (1,000's t; 1991+)	23
39	Comparison of estimates of mature biomass-at-mating by sex (in 1000's t) from the base and preferred models (model start to 1980)	24
40	Comparison of estimates of mature biomass-at-mating by sex (in 1000's t) from the base and preferred models (1981 to model end)	25
41	Comparison of estimates of recruitment (in millions) from the base and preferred models (model start to 1980)	26
42	Comparison of estimates of recruitment (in millions) from the base and preferred models (1981 to model end)	27
43	Comparison of exploitation rates (i.e., catch divided by biomass) from the model scenarios (model start to 1980)	28
44	Comparison of exploitation rates (i.e., catch divided by biomass) from the model scenarios (from 1981 to model end)	29
45	Comparison of RMSEs from fits to fishery catch data, survey data, and molt increment data.	30

Tables

Table 1: Estimated rates of natural mortality (period of elevated M is 1980-1984).

case	immature		mature			
	all		female		male	
	typical	typical	elevated	typical	typical	elevated
22.01	0.237	0.306	0.606	0.304	0.712	
22.07	0.233	0.312	–	0.301	–	
22.08	0.236	0.304	–	0.313	–	
22.09	0.237	0.306	0.606	0.304	0.712	
22.10	0.236	0.307	0.599	0.305	0.723
