22 SEP 1980

h. 01 September. USCGC CAMPBELL issued a citation to the West German stern trawler FREDRICH BUSSE for failure to properly maintain her daily cumulative catch log. Fish meal was under logged by approximately 6 percent.

i. 05 September. USCGC MUNRO issued a report of violation to the Soviet stern trawler PAUDZA for logging discrepancies in the daily cumulative catch log. The last days catch was over logged to account for excess fish meal found during hold inspection.

j. 06 September. USCGC RUSH seized the Japanese stern trawler SHINNICHI MARU 38 approximately 11 miles southwest of Kiska Island for under logging her catch of Pacific ocean perch and other rockfish by approximately 28.5 metric tons and over logging pollack by approximately 20.5 metric tons. The vessel had conducted a transfer on 01 September during which the vessel's transfer log indicates some 99.9 metric tons of which 94 percent was pollack was transferred.

k. 07 September. USCGC CAMPBELL issued a report of violation to the Japanese stern trawler KAIYO MARU 7 for failure to properly maintain her daily cumulative catch log. The vessel was logging product weight vice round weight in the DCCL. However, round weight figures were reported to NMFS in weekly catch reports.
