

January 30, 2026

Angel Drobnica, Chair

North Pacific Fishery Management Council

1007 West 3<sup>rd</sup> Avenue, Suite 400

Anchorage, AK 99501

Dear Chair Angel Drobnica and North Pacific Fishery Management Council members:

**RE: C2 - Chum Salmon Bycatch – Final action**

We, the undersigned, urge the Council to set strict limits for the bycatch of chum salmon by the trawl fisheries in Alaska's waters.

The federally managed trawl fleets targeting pollock in the Bering Sea and Gulf of Alaska have no limit on the number of chum salmon they can pull in as bycatch. Meanwhile, Alaskans on the Yukon and Kuskokwim Rivers and elsewhere have seen the number of returning chum salmon dwindle, and subsistence, sport, and directed commercial fishing shut down. While customary and traditional and small boat fishermen bear the brunt of conservation to protect chum salmon, large, trawl corporations are conducting business as usual in federal waters off Alaska's coast, catching chum salmon without any limits. The Council must take action to curb this wanton waste. The Draft Environmental Impact Statement prepared by NOAA Fisheries shows that now is the time to put restrictions on the trawl fishery to meaningfully curb chum salmon bycatch.

We urge the Council to select a combination of a hard cap of 100,000 chum salmon (Alternative 2) with a corridor cap of 50,000 and closure upon hitting that cap (Alternative 5, Option 1). We also request the Council to formalize chum salmon bycatch reduction measures in federal regulations as transparent, mandatory tools for the industry to use to stay below these limits (Alternative 4).

Taken together, these measures are a starting point that the Council can take now to correct the imbalance of conservation that has been shouldered by Alaskans and address the wasteful practices the pollock trawl fleet has gotten away with for decades.

Sincerely,
