GOA REPORTING AREAS

Field Definitions

Fisheries status:

- Open = open to directed fishing in the harvest specifications
- Bycatch = closed to directed fishing in the harvest specifications or through an inseason action
- Prohibited species catch (PSC) = prohibit directed fishing in regulations or through an inseason action
- Overfishing level (OFL) closure = may prohibit areas or fisheries with high incidental catch of a species approaching an OFL

Management terms:

- Total allowable catch (TAC) = set less than or equal to the acceptable biological catch (ABC) for an area or subarea
- Allocation = when TAC is distributed to a specific user group or gear type
- Apportionment = when TAC is split proportionally to the ABC across an area
- Incidental catch allowance (ICA) = TAC set-aside to support other directed fisheries
- Directed Fishing Allowance (DFA) = remaining TAC apportioned by area after the ICA is deducted if applicable
