## RE: C2 Chum Salmon Bycatch - Initial Review

Hello, Please Stop The Trawlers!!! All salmon are important to Alaskans, animals, oceans, land, and opportunities. We have the circle of life. Trawlers are breaking that circle. Trawlers are destroying Alaska in more ways than you know. No amount of by catch is acceptable! None! These Seattle trawlers need to be stopped! As an Alaskan resident, voter, sports fisherwoman I say, "Stop the Trawlers". Thank you for listening to reason and common sense. Sincerely, Kathleen Budd
