Session purpose

In preparation for the June 2024 Climate Scenarios Workshop (June 5-6, Kodiak AK), this virtual session will provide an introduction to climate scenario planning and the scenarios that will be discussed at the NPFMC Climate Scenarios Workshop. This discussion will help:

- Introduce the approach of climate scenario planning as a strategy for adaptation planning
- Introduce the four workshop scenarios and their key attributes, and differences; and describe the approach to workshop discussions
- Review workshop outputs and outcomes, opportunities for participation, and next steps

Agenda

- (5 minutes) - Introduction and workshop update
- (25 minutes) - Climate scenario planning and workshop scenarios - Kirstin Holsman, NMFS AFSC
- (5 minutes) - Workshop outcomes, discussion, and next steps
- Q&A and discussion
