

AP motion

E2: Climate Resiliency Work Plan: Harvest Control Rules

June 2026

The AP recommends that the Council task the Ecosystem Committee to support the development and review of plain language materials related to the Council's climate resilience work (including the Harvest Control Rule work).

Motion passed 14-0

Rationale in Support of Main Motion

- *The makeup of the EC makes it well suited to assist in the development of communication materials related to climate resiliency planning and HCRs.*
- *The AP supports the EC's recommendation that this work is very much needed and important.*
