

North Pacific Fishery Management Council
MOTION D2 EFH 5-year Review Plan
December 7, 2025

The Council supports the scope and plan for the 2028 Essential Fish Habitat (EFH) 5-year review described in the discussion paper and presentation for this meeting. The approach for this review reflects current priorities of the Council and NMFS regarding new information available to update the EFH components of the Council's Fishery Management Plans.
