2026

Sarah Marrinan and Kate Haapala
June 2026 NPFMC meeting
Vancouver, WA

Several types of written reports and letters received

Written reports linked on our [webpage](#) for 2025

- Cooperative reports (AFA, A80, Crab, CGOA rockfish, and PCTC)
- Salmon bycatch Incentive Plan Agreement reports (Bering Sea pollock)
- Trawl Electronic Monitoring Incentive Plan Agreement report

Letter linked on our [eAgenda](#)

- SeaShare letter

Cooperative Reports

The Council has developed several catch share programs that allow or require the formation of cooperatives. As part of these programs, cooperatives submit annual reports detailing the use of the cooperative quota or other aspects of the program. Data provided is for the 2025 fishing year.

AFA

- Implemented in 1999
- Key species – pollock
- Cooperatives – 7
- Active vessels – 80
- Program first wholesale value - \$1.32 billion*
- Pounds landed – 2.57 billion

Cooperative Report Includes:

- Allocation and sub-allocation of pollock and sideboards
- Retained and discarded catch
- Cooperative monitoring methods

BSAI Crab

- Implemented in 2005
- Key species – King and Tanner crab
- Cooperatives – 9
- Active vessels – 43
- Program first wholesale value - \$160.4 million*
- Pounds landed – 18.8 million

Voluntary Cooperative Report Includes:

- Measures to increase availability of QS for transfer to active participants and crew members
- Measures to address high QS lease rates
- Measures to address low crew compensation

Amendment 80

- Implemented in 2008
- Key species – Flatfish, other groundfish
- Cooperatives -1
- Active vessels – 14
- Program first wholesale value - \$306.7 million*
- Pounds landed – 635.8 million

Voluntary Cooperative Report Includes:

- Retained and discarded catch
- Directed and bycatch species transfers
- Cooperative monitoring methods
- Percent of groundfish retained

Central Gulf Rockfish

- Reauthorized in 2021
- Cooperatives – 5
- Active vessels – 25
- Program first wholesale value - \$40.0 million*
- Pounds landed – 71.0 million

Voluntary Cooperative Report Includes:

- Cooperative's quota and sideboard limit
- Retained and discarded catch
- Cooperative monitoring methods

BSAI Pacific Cod Trawl (PCTC)

- Implemented in 2024
- Key species – cod
- Cooperatives – 4
- Active vessels – 28
- Program first wholesale value - \$39.8 million*
- Pounds landed – 44.1 million

Voluntary Cooperative Report Includes:

- CQ Leasing activities and any penalties
- Harvest of CQ resulting from processor-held QS
- Cooperative membership, management and performance

*Values based on 2024 wholesale prices

IPA reports

Salmon bycatch IPA reports

- Bering Sea pollock fisheries
- Required reporting to the Council
- Reporting is based around measures taken for salmon bycatch avoidance

Incentive Plan Agreement reports for 2025

Bering Sea Pollock Mothership Salmon Saving Incentive Plan

Chinook Salmon Bycatch Reduction Incentive Plan

Inshore Salmon Savings Incentive Plan

Trawl EM IPA report

- Gulf of Alaska (GOA) pelagic trawl fisheries participating in electronic monitoring (EM)
- Required reporting to the Council
- Reporting is based around incentive measures to limit changes in vessel behavior as a result of certain exemption received in the creation of the EM program
- First year of the report

Trawl Electronic Monitoring Incentive Plan Agreement reports for 2025

Gulf of Alaska TEM IPA

SeaShare update

- Prohibited Species Donation (PSD) program established in 1994
- SeaShare is the sole distributor authorized by NMFS to administer the Prohibited Species Donation Program (PSDP) for salmon and halibut in the Bering Sea and Gulf of Alaska
- Council to receive a presentation on these efforts

Oral presentations (order subject to change)
