# Chum Salmon Bycatch in Bering Sea Pollock Fishery

## Public comments on Draft Environmental Impact Statement

Doug Shaftel, NMFS Fisheries Management Specialist

# DEIS Public Comments

## DEIS publication in Federal Register (September 12, 2025)

- 112-day public comment period
- January 5, 2026 - end of comment period

## DEIS Comment Summary Report

- 616 comments submitted
- Tribal cooperating agencies
- Tribes
- Tribal coalitions
- Pollock fishery organizations
- Conservation organizations
- Community Development Quota group
- Environmental Protection Agency
- Individual comments

## NMFS next steps (if Council recommends a preferred alternative)

- Comment responses

Published with Final Environmental Impact Statement

# Chum Salmon Bycatch in Bering Sea Pollock Fishery

## Tribal Engagement and Consultation

# Chum Bycatch Action Tribal engagement and consultation

- Between 2022 to 2026
  - Seven (7) Tribal engagement sessions
  - Five (5) Tribal consultations
    - Most recently January 26, 2026
  - DEIS, §§1.3.6 and 1.3.7 (pp. 62-68).
- Engagement process improvements
  - Newsletter
  - Pre-meeting engagement sessions

# Tribal Consultation (Jan. 26, 2026)

## Preferred Alternative

### Alt 2: 100,000 chum salmon PSC limit

- 40% of bycatch outside of Alt 5 corridor area
- less than 100,000 chum bycatch achieved twice

### Alt 4

- Hard cap under Alternatives 2 or 5, must accompany Alternative 4

### Alt 5, 50,000 chum salmon PSC limit

- Option 1 (40 stat areas)
- Disfavor suboptions 1 and 2 due to smaller closure area
- Total chum, not chum salmon rates, for stat area selection

### No support:

- Alternative 3  
CDQ reserve pool, or
- Alternative 5, Options 3 or 4

# Tribal Consultation (Jan. 26, 2026)

## Traditional Knowledge

Traditional Knowledge + western science = best available science

- NPFMC Scientific and Statistical Committee
  - Traditional Knowledge/Traditional Ecological Knowledge Seat
- Traditional Knowledge needs to be shared with the Council
  - TK Report (similar to B report)
  - Council statement on TK use in analyses
  - NMFS explains in EIS how TK is received, considered, and incorporated

# Tribal Consultation (Jan. 26, 2026)

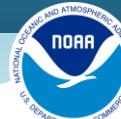

## Additional concerns

- Document how Tribal input is meaningfully considered in Council's recommendation and NMFS decision
- Conservation burden on Tribes
- Layers of regulation on Tribal in-river fisheries
- Bycatch from Gulf of Alaska (18.7%)
- Salmon bycatch should be distributed to Western and Alaska salmon users
- NPFMC Tribal seat
