

**Staff Tasking – Council motion
February 10, 2022**

The Council tasks Council staff, with support from AKFIN staff, to develop a discussion paper identifying a few (e.g., 2-4) economic data components, including crew data, that 1) are not currently collected across all sectors but that could improve FMP and regulatory impact analyses if collected from all sectors, and/or 2) should continue to be collected from catch share programs and could inform potential revisions to current EDR requirements. The paper should also evaluate the appropriate data collection mechanism and frequency, which could include surveys, annual reports, or other tools that can collect consistent, useable data in a clear format that minimizes submittal burden and collection cost.
