

Draft SSC Report June 2022

C4 Trawl Electronic Monitoring

C4 Trawl EM - Initial Review (1 of 2)

- The SSC ***finds*** the analysis sufficient to advance to final action with minor revisions
- The SSC ***recommends*** minor revisions to
 - Better describe how incentives to participate in the program vary by subfleet, perhaps by examining patterns of participation in the EFP by region, overall fishing portfolio, community
 - Elucidate the extent of costs and benefits experience by these subfleets
 - Include tender vessels in the estimates of costs and attribution of vessels to communities

C4 Trawl EM - Initial Review (2 of 2)

- The SSC *recommends* minor revisions to (cont.)
 - Include discussion of how the shift to dockside observation might affect local labor markets and economic impact of observer programs
 - Include a summary of comparisons of human observer and EM data from pilot studies
