

ALSA

Bunk space release considerations:

- 1) Vessel owner has less than 1000 pounds of unfished IFQ and vessel owner provides signed contracts with IFQ riders requiring performance.
- 2) Vessel owner demonstrates history of fishing with all bunks on vessel full.
- 3) Vessel has been selected for more than two consecutive trips.
- 4) Vessel owner documents a compelling safety concern.
- 5) Vessel is entering state waters fishery with *de minimus* amount of unfished halibut/sablefish IFQ on board (less than 1,000 pounds in aggregate)
