

## COUNCIL MOTION

E1 Staff Tasking - Halibut/Sablefish quota share transfer discussion paper

June 11, 2018

The Council requests that staff develop a discussion paper for review by the IFQ Committee in response to community access and entry opportunity challenges identified in the 20-year review of the Halibut and Sablefish IFQ program and related public testimony.

\*This paper would discuss both regulatory and non-regulatory changes that would promote transfers of QS between persons using hired masters to crew members and hired skippers.

\*The paper should discuss the potential use of ROFO (Right of First Offer) concepts in the halibut/sablefish IFQ program.

\*The paper should discuss potential improvements to the Federal Financing loan program that may promote community access and entry level opportunities.
