

SEASHARE

NOT JUST FEEDING PEOPLE, BUT FEEDING PEOPLE WELL

Background

SeaShare is the only organization that focuses on seafood as a source of nutrition for food banks across the country.

230 Million Servings of lean protein have been donated since 1994.

We started in Alaska, with the Prohibited Species Donation Program.

25 year later, only 10% of the fish we donate is Prohibited Species Catch.

2018 Results

Last year SeaShare and its partners donated over 6 million servings of seafood across the United States.

Donations of Prohibited Species Catch reached 5.5 million Pounds.

That's 22 million servings from fish that would have otherwise been thrown overboard.

Current Participants

The National Marine Fisheries Service amended our permits in January, then again in May, to update the list of participants:

- ▶ 136 Catcher Boats
- ▶ 11 Shoreside processors
- ▶ 38 At-Sea Processors
- ▶ 2 re-processors in Puget Sound
(to inspect, trim, steak and re-pack)

2018 PSC Donation Volumes from BSAI & GOA

355,085 pounds of PSC salmon
+ 41,950 pounds of PSC halibut
= 397,035 total pounds

Distribution of PSC Donations

- ▶ 59,700 pounds distributed in Alaska.

All at 0 cost to the receiving agencies.

- ▶ 337,335 pounds were distributed in other states: WA, CA, OR, MO, CT.

Feeding America reimbursed SeaShare for a portion of the downstream costs to ship, hold, re-work, and package fish for their food banks.

Giving back in Alaska

- ▶ Fishermen, processors, and financial partners have all asked us to do more to help hungry families in Alaska.
- ▶ 40% of Alaskans live in or near Anchorage, so we started there.
Other population centers include Fairbanks and Juneau.
- ▶ Sending frozen seafood from Dutch Harbor and Kodiak to other locations in Alaska is difficult.
- ▶ The Terry Shaff Memorial Fund was established in 2014.
The goal was to increase the capacity for donations to remote villages.

Anchorage and the Mat-Su Valley

- ▶ Truckloads are sent to the Food Bank of Alaska and Bean's Café.
- ▶ Just last month we sent 18,000 pounds of frozen seafood to them.

Fairbanks

- ▶ Fairbanks Community Food Bank provides a variety of services to needy families
- ▶ SeaShare sends at least 1 container per year to help feed families there.

Juneau

Seafood donated across Alaska

Almost 200,000 pounds of fish have been distributed in Alaska over the last 12 months:

- ▶ Canned Salmon sent to the Food Bank of Alaska via AML.
- ▶ Breaded Alaska pollock portions sent to Bean's Café and the Children's Lunchbox via Tote.
- ▶ Breaded Alaska pollock portions sent to our freezer in Dillingham via AML.
- ▶ Breaded Alaska pollock portions sent to our new freezer in Bethel via Lynden Air Freight.
- ▶ Ling Cod steaks sent from Kodiak to Chignik via regional Air Taxi.
- ▶ Halibut and salmon sent to Nome and Kotzebue via USCG Air Station Kodiak.
- ▶ Halibut and salmon donated to USCG food Pantry, Kodiak (during Gov't shutdown).
- ▶ Alaska Pollock fillets donated in Kodiak.
- ▶ Sablefish steaks donated in Kodiak.
- ▶ Breaded Alaska pollock portions sent to Southeast Alaska Food Bank in Juneau.

Kodiak

- ▶ Mary works with 4 shore plants all year long to coordinate local donations.

Nome & Kotzebue

- ▶ Every summer we coordinate with Air Station Kodiak to fly fish from Kodiak to Nome and Kotzebue

Freezers for Alaska Food Banks

SeaShare is building new networks in key hubs.

We've recruited seafood donors, freight partners, local food banks, and financial supporters.

We now have freezers in

St. Paul

Dillingham

Bethel

St. Paul Island

Bristol Bay

- ▶ New partnership developed in 2016 to increase seafood donations
 - ▶ Bristol Bay Native Association
 - ▶ Bristol Bay Economic Development Association
 - ▶ Port of Dillingham
 - ▶ Lynden Inc
 - ▶ Peter Pan Seafoods

- ▶ SeaShare sends frozen fish north on the first barge of the season
- ▶ Peter Pan Seafoods re-fills the freezer after the salmon fishery ends

Yukon–Kuskokwim Region

In 2018 we took what we learned in Bristol Bay to develop another partnership, in Bethel.

- ▶ Lion's Club Food Bank
- ▶ Bethel Community Services Foundation
- ▶ Lynden Inc .
- ▶ Rasmuson Foundation
- ▶ Multiple seafood donors

SeaShare sent the first load to Bethel in April:

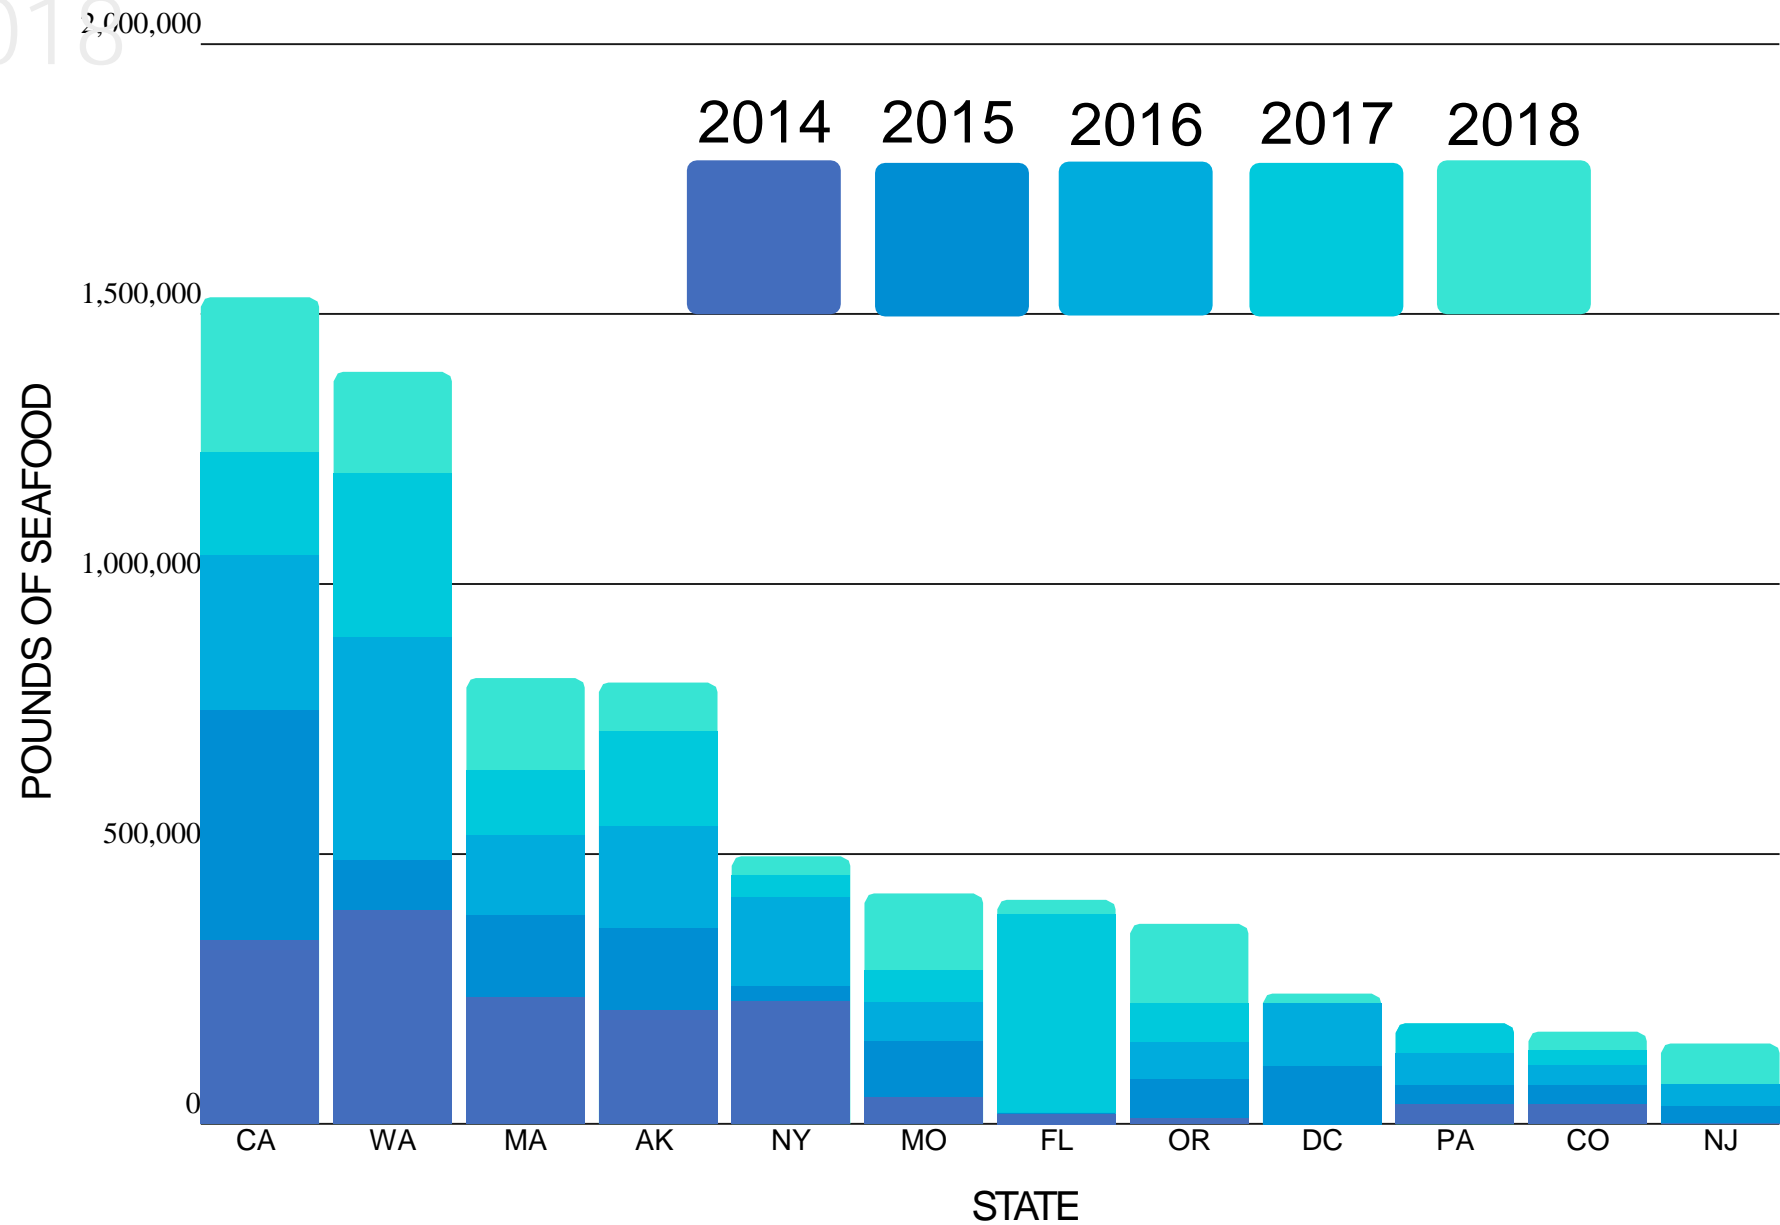

12,000 pounds of frozen Wild Alaska pollock portions.

AML barge took the fish to ANC. Then Lynden Airfreight shipped to Bethel as they had room on their Hercs, because there is no barge service with frozen storage to Bethel.

Distribution by State, 2014-2018

Summary

The Prohibited Species Donation Program has worked for 25 years, reducing waste while providing nutritious seafood to families served by food banks.

It has also been a catalyst for other valuable donations across Alaska.

SeaShare thanks all of the individuals, companies, and organizations who support us. We will continue to combine their generosity to achieve maximum benefit for everyone.

Please let us know if you have recommendations to improve the program, or if you have ideas for additional collaboration.
