Professional Profile

- ❖ Extensive professional experience in the fishing and seafood industry
- ❖ Expertise in the management of fleet and production operations
- ❖ Well versed in the science, regulations, and policies that influence the management of Alaska's fisheries
- ❖ Proficient at managing projects to completion and achieving desired results

Education

Oregon State University (05-07), M.S. in Marine Resource Management, Honors
Brigham Young University (01-02, 04-05), B.S. in Biology, Honors
Bellevue Community College (00-01), A.A. & A.S., Honors
University of Washington (99-00)

Professional Experience

Icicle Seafoods, Inc – General Manager of Western Operations, Seattle, WA
(Sept 2012 – present)

- Oversees and helps administer harvesting, procurement, and processing functions throughout Icicle's Western Alaska operations.
- Manages BSAI crab fleet and cod fleet/production operations
- Assists with management and oversight of Icicle's Bristol Bay Salmon and Herring operations.

Icicle Seafoods, Inc – Operations Manager of Floating Production, Seattle, WA
(April 2010 – Sept 2012)

- Managed BSAI crab fleet operations and assisted with the management of Icicle's affiliated crab harvesting cooperative
- Assumed administrative responsibilities for all fishing and tendering vessels owned by Icicle

Icicle Seafoods, Inc – Assistant Vessel Manager, Seattle, WA
(April 2008 – April 2010)

- Assisted the Vessel Managers with planning and directing production and support operations on all of Icicle's processing vessels

Seafood Consumer Center – Consultant, Astoria, OR
(Sept 2007 – April 2008)

- Managed the development and implementation of an interactive web site aimed at connecting various user groups with the data and research

results generated by the fishermen and scientists involved in Project CROOS (Collaborative Research on Oregon Ocean Salmon)

OSU Marine Experience Program Internship – Student Coordinator, Corvallis OR (Spring – Fall 2006)

- Worked with industry and educators to provide students with opportunities to work collaboratively with fishermen, processors, managers, researchers, marine educators and others who are intimately involved with the fishing/seafood community

Astoria Pacific Seafood – Quality Control Manager (June – Sept. 2006)

- Managed the company's quality control and sanitation programs
- Assisted plant manager in overseeing seafood processing operations

F/V Stonehorse – Deckhand, Bristol Bay, AK (Summer 2001, 2002)

- Gillnetted sockeye salmon
- Assisted with boat maintenance and operation

Volunteer Service

Volunteered as a missionary for my church doing humanitarian work among several communities in and around Monterrey, Mexico (02-04).

Accomplishments, Honors, and Activities

- OSU Laurel's Scholarship recipient (06-07)
- Member of the Chancellor's List (05-07)
- Member of The Honor Society Of Phi Kappa Phi (04-07)
- BYU Deans List, (01-02, 04-05)
- Academic Scholarship (04-05)
- Nominated to International Mission on Medicine National Society of Collegiate Scholars (2001)
- Nominated for National Honor Society Membership (00-01)
- Scholar Athlete Award (99-00)
- Member of The National Society of Collegiate Scholars chapter at University of Washington (99-00)
- Member of Bellevue College varsity baseball team (00-01)
- Member of University of Washington varsity baseball team (99-00)

Rayno0@hotmail.com

November 5, 2014

Dear Sir or Madam,

My name is Ray Nomura and would like to be considered for a term on the PNCIAC panel.

I graduated from Franklin High School in Seattle Washington in 1980 and finished one year of classes in the automotive field at a Community College.

I started at Trident Seafoods January 1983 to present. During my time at Trident I did various jobs in Seattle and Alaska, working in shipping and receiving, processor, herring tech (roe buyer), salmon and herring tendering, purchasing agent, assistant plant manager, tender fleet operation, salmon and crab fleet manager.

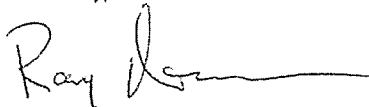

I got involved with the Herring and Salmon operation shortly after joining Trident and around 1988 started getting involved in the crab operation.

Although, I spent most of my career with Trident Seafoods; I did leave in 1990 to 1991. I joined a Factory Trawler company (Alaska Trawl Fisheries), to try something different and got to learn the operation of a Factory Trawler, as I was able to make a couple of trips on the boat and helped with other administrative tasks, as we only had one vessel.

I was drawn back to Trident in 1992, working with the Trident trawlers in Akutan but somehow ended back in crab and Bristol Bay operation soon after my return. I have enjoyed meeting and working with the boat owners and captains and have gained a pretty good understanding of the crab industry over the years, as I have worked during the open access years and through the current crab rationalization system. At present, I spend most of my time between Bristol Bay and St Paul, Alaska.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in black ink that reads "Ray Nomura". The signature is written in a cursive style with a long horizontal line extending to the right.

Ray Nomura

Royal Aleutian
SEAFOODS

Current position:

December 2001 to Current

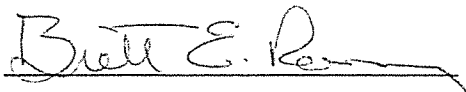

Financial Accountant for Royal Aleutian Seafoods

I began at UniSea in the Sales department handling customer invoicing, shipping documentation, and product logistics.

In 2005 I moved over to the accounting department to become the G/L Accountant for Royal Aleutian Seafoods (RAS), an entity that represents the crab division of UniSea. I am responsible for the following:

- All day to day A/R, A/P and G/L accounting for RAS.
- Payments to harvesters for all crab deliveries.
- All State and Federal taxes related to Crab Rationalization.
- Crab quota leases, transfers, and pre-season share-matching.
- I attend Crab Plan Team meetings.
- I have participated in several committees appointed by the North Pacific Fisheries Management Council to give feedback on various aspects of the crab industry post rationalization.
- I have testified at Council Meetings (NPFMC) on issues related to crab.
- I spend time in Dutch Harbor every crab season meeting with skippers of delivering crab vessels.
- I provide historic information to John Sackton to assist in his crab market analysis of the various crab species.
- I have attended meetings of The North Pacific Crab Association (NPCA), The Pacific Northwest Crab Industry Advisory Committee (PNCIAC), and The North Pacific Fisheries Management Council (NPFMC).

Thank you, for your consideration.

EXPERIENCE

October 1992 to October 2001

Asst. Manager – Billing Department (primary job); Marco Marine (206) 285-3200

Brian Schneider, Mfg. Accounting Comptroller, ext. 339 / Jose Fernandez, Billing Department Manager, ext. 280

- Domestic and international sales invoicing
- Compile all charges to CIF for inclusion on invoices
- Produce all documentation required to negotiate L/Cs
- Create credit memos and misc. invoices
- Provide documents for international goods inspection
- Complete NAFTA documents when applicable
- Research customer and internal billing inquiries
- Create spreadsheets to track & prorate charges
- Create office templates with *Word, Excel & Outlook*
- Back up A/R receipts, deposits and cash application
- Back up A/P voucher entry and time card entry
- E-mail and fax documents worldwide
- Maintain relationships with bankers and shippers
- Provide month-end invoice summary and accrual
- Write accounting procedure manual for new system
- Train accounting department on new *Oracle* system

Asst. Network Administrator (secondary job beginning 1998); Marco Marine

Glen Wambheim, Information Services Department Manager (Data Processing), ext. 357

- Troubleshoot errors on NT, 95, and 98 workstations
- Backup NT servers using *ARCserveIT*
- Install programs and upgrades to 60 workstations
- Apply Service Packs and patches to NT servers
- Manage e-mail accounts for 60 users on MS Exchange
- Print AS-400 reports & checks to network band printer
- Route AS-400 jobs to printers and job queues.
- Manage security configuration of *Watchguard* firewall
- Resolve network printer and configuration problems
- Research computer issues using the internet
- Write software procedures for network users
- Oversee file security and space management on servers
- Rotate backup media for AS-400 and NT servers
- Remove viruses and keep anti-virus software current
- Reinstall operating systems on corrupted workstations
- Log in from home to check nightly processing
- Answer user questions about file types and software
- Schedule users for computer training

July 1991 to September 1991

New Business Processor; GNA Securities (Summer position while attending college)

Kevin Moen, New Business Lead

- Received checks for new business orders to process
- Filed and retrieved files of existing clients
- Photocopied all pertinent transaction information
- Maintained a daily log of new business check totals
- Shipped processed checks to investment companies
- Interviewed prospective replacements before leaving

September 1988 to September 1992

Data Entry/Bookkeeper; Reasor Financial (ongoing part-time while attending college)

Laurie Reasor, Office Manager

- Ran sales illustrations on prospective insurance clients
- Processed pro-forma financial plans for existing clients
- Performed general bookkeeping including bank reconciliation and check deposits

EDUCATION

Central Washington University – Bachelor of Science Degree in Business Administration

September 1990 to August 1992

3.46 GPA, Graduated Cum Laude with double major in Financial Management & International Business

My classes included researching and reporting on Seattle area companies, capital budgeting analysis, stock portfolio theory, investment models and complex computer simulations to better understand business operations. I also used spreadsheets to do ratio and statistical analysis on companies.

Shoreline Community College – Associate of Arts Degree in Business

September 1987 to June 1990

Classes included; Accounting, Financial Accounting, Managerial Accounting, Micro and Macro Economics, Advertising, Marketing, Business Law and Programming in Basic.

SUMMARY

Versatile - Learns quickly - Available immediately - Healthy non-smoker

RUTH A. CHRISTIANSEN

OBJECTIVE

To further my expanding career interests in the field of North Pacific fisheries management.

PROFESSIONAL EXPERIENCE

Alaska Bering Sea Crabbers Seattle, WA Mar 2013-present

Science Advisor/Policy Analyst

- Science specialist providing the Board of Directors and Executive Director with analyses of all science issues affecting Bering Sea-Aleutian Islands crab stocks, with particular focus on crab stock assessments used in the North Pacific Fishery Management Council and State of Alaska harvest specifications setting process.
- Policy analyst providing the Board of Directors and Executive Director with analyses of complex policy issues with particular focus on the way in which both current and future scientific information serves to influence and shape policy direction of the ABSC organization.
- Represent ABSC and its mission before the North Pacific Fishery Management Council, the Board of Fisheries, and the Crab Plan Team, as well as numerous other panels and boards.
- Maintain close communication with the ABSC Board of Directors, Executive Director, and members, the public at large, and both Federal and State governmental entities.

Alaska Department of Fish & Game; Extended Jurisdiction Juneau, AK Apr 2010-Mar 2013

Policy Analyst/Fisheries Biologist

- Issue specialist for State and Federal fishery management plans for Bering Sea-Aleutian Islands and Gulf of Alaska fisheries with intimate knowledge of State and Federal policy and regulatory processes.
- Provided technical advice regarding the anticipated impacts of North Pacific Fishery Management Council actions upon Alaska fisheries and assess the effects of regulatory amendments on State fishery management. Advised State representatives of necessary considerations to aid the State in realizing the maximum possible benefits from commercial fisheries off Alaska.
- Provided critique of Council analyses and draft language for motions consistent with State policy and Federal law. Developed background material and supplemental analyses for use in introducing motions and shaping Council direction on relevant issues.
- Developed regulatory consistency and policy direction between State and Federal managers on matters of mutual concern. Key topics include salmon, halibut and other bycatch enumeration and reduction measures; rationalization programs; improved retention/improved utilization; observer program restructuring; catch data recording; and Steller sea lion measures.
- Worked with the interested public and industry participants concerning the overall development and implementation of management measures for Alaska fisheries.

Atlantic States Marine Fisheries Commission/ASMFC Washington D.C. Mar 2005-Sep 2006

Fisheries Management Plan Coordinator

- Managed the development, approval, implementation, and monitoring processes of the ASMFC fishery management plans amongst state, federal and non-governmental policy partners.
- Integrated board decisions, committee and workshop findings into management planning. Coordinated policy change management processes and presented public opinion findings to State Directors for review.

- Managed communication and relationship building efforts between State Directors, science team, stakeholders and general public. Liaison for ASMFC and State Directors communicating process changes with stakeholders and general public.
- Coordinated, scheduled, distributed documentation for and attended board meetings, technical and advisory committee meetings, and stock assessment workshops.

People For Puget Sound

Seattle, WA

May 2003-Sep 2003

Habitat Program Assistant

- Managed the community outreach program efforts designed to protect and restore the long-term health and success of the Puget Sound.
- Collected samples and monitored the plant growth of restored native habitat sites throughout Puget Sound. Edited and managed field gathering database as appropriate. Documented and reported success of restoration sites to the National Oceanic & Atmospheric Administration.
- Recruited, trained and supervised volunteers for habitat protection advocacy, salmon restoration projects and cleanup events.

Alaska Fisheries Science Center

Seattle, WA

Jan 2002-May2003

Biological Technician/Research Assistant

- Responsible for tag-release recovery efforts in Aleutian Islands trawl-exclusion zones including participation in pre- and post- cruise development, planning, and analysis.
- Gathered and managed data from tag-release recovery studies for use in testing of population dynamic theories associated with marine mammal decline.
- Designed, implemented and facilitated high school outreach program focused on increasing the number of women in science.

Saltwater, Inc.

Honolulu, HI

Apr 2001-Jun 2001

Biological Observer

- Collected data and documented protected species interactions to determine appropriate fishing regulations. Responsibilities included recording fishing effort of the vessel and processing of life history information for selected specimens.
- Developed and maintained relationship building efforts between the National Marine Fisheries Service, the captain, crew members and other interested parties.

Marine Science Institute

Redwood City, CA

Jun 2000-Apr 2001

Science Instructor/Marine Educator

- Developed, implemented and facilitated environmental outreach education programs. Designed curriculum based on audience needs and awareness to encourage responsibility and participation in environmental stewardship.

EDUCATION

Edmonds Community College

Lynwood, WA

Apr 2009-Jun 2010

Advanced Paralegal Certificate

- American Bar Association Accredited

University of Washington

Seattle, WA

Sep 2002-Jan 2005

Master of Marine Affairs

- Emphasis on policy analysis
- Thesis entitled *An Evaluation of the Puget Sound Groundfish Management Plan for the Recovery of Rockfishes in Puget Sound*
