

# Welcome to the Local Knowledge, Traditional Knowledge, and Subsistence Taskforce meeting!

- Please remember to mute your phone or computer when you are not speaking.
- Taskforce members may choose to turn on their webcams. Members of the public are asked to leave their webcams off.
- Public testimony will be taken at the end of the day.
- For individual tech support, email [npfmc.admin@noaa.gov](mailto:npfmc.admin@noaa.gov)

# Local Knowledge, Traditional Knowledge, and Subsistence Taskforce

January 21, 2022

Co-Chairs:

Sarah Wise, [sarah.wise@noaa.gov](mailto:sarah.wise@noaa.gov)

Kate Haapala, [kate.haapala@noaa.gov](mailto:kate.haapala@noaa.gov)

# Today's Agenda

1. Welcome,  
introductions,  
how are people  
doing?
2. Protocol
  1. Exercise
3. Public comment
4. Future planning

***Welcome!***

- **Introductions**
- **Questions, comments, reflections**

*Protocol Exercise*

# Description

During this breakout session, members will have approximately 20 minutes to discuss the following question:

*1. Should we use case studies/vignettes to help illustrate the guidelines? If so, which ones?*

The purpose of this exercise is to discuss these ideas, issues, or questions and common understanding to move forward.

# Question 1 -Notes

1. Should we use case studies to help illustrate the guidelines?  
If so, which ones?

# Description

During this breakout session, members will have approximately 20 minutes to discuss the following question:

*2. Does the protocol treat the weighting of LK/TK and western science equally? What are people's thoughts about that?*

- a) For example, what are some of the complications around using LK or TK in model simulations or efforts? How would we as a Taskforce give guidance on that?*
- b) For example, how would we (or could we) bring LK or TK into social indicators? How do we as a Taskforce want to give guidance on that?*

The purpose of this exercise is to discuss these ideas, issues, or questions and common understanding to move forward.

# Question 2 -Notes

2. Does the protocol treat the weighting of LK/TK and western science equally? What are people's thoughts about that?

# Question 2a -Notes

2a. What are some of the complications around using LK or TK in model simulations or efforts? How would we as a Taskforce give guidance on that?

# Question 2b -Notes

2b. How would we (or could we) bring LK or TK into social indicators? How do we as a Taskforce want to give guidance on that?

# *Other reflections or questions*

*Protocol - 2*

# Description

Each guideline has practical steps.

The Taskforce will take a couple of minutes to re-familiarize themselves with each guideline. Then we will walk through each guideline and discuss whether people think certain bullets should be removed OR added.

*(~15 minutes or so per guideline)*

# *Taskforce notes – Guideline 1*

# *Taskforce notes – Guideline 2*

# *Taskforce notes – Guideline 3*

# *Taskforce notes – Guideline 4*

# *Taskforce notes – Guideline 5*

# *Taskforce notes – Guideline 6*

# *Taskforce notes – Guideline 7*

*Other points of consideration*

# Future planning

- Following this meeting, report will be drafted and circulated for review/comments.
- Council receives an update in April
  - Kate will follow up with members on Council's feedback or action
- Fall 2022 meeting
  - Onramps
  - Protocol Draft 2
- January 2023
  - Review final protocol

## *Reminders*

- *Search engine going live*
- *Finalized protocol coming forward one year from now*

# Questions?
