

Addendum to IFQ Omnibus Analysis Table 4-7.

This addendum provides an addition to Table 4-7 of the analysis. Table 4-7 identifies the number of vessels that harvested sablefish IFQ by GOA subarea and gear type. The below table provides the number of distinct vessels that harvested sablefish in each subarea as an addition to that table. Because some vessels used both pot and HAL gear, it is not possible to obtain these numbers based on the original Table 4-7.

Vessels that harvested sablefish IFQ by GOA subarea

Year	Total # vessels			
	WG	CG	WY	SE
2014	59	168	103	183
2015	54	161	99	178
2016	61	156	103	177
2017	60	151	103	171
2018	60	148	95	174
2019	50	134	90	169
2020	45	119	82	161
2021	46	131	85	152
