

NORTH PACIFIC FISHERY MANAGEMENT COUNCIL

Salmon Bycatch Genetics Workshop - 04/15/19-04/16/19

April 15-16, 2019

Salmon Bycatch Genetics Workshop

April 15-16, 2019 8am-5pm

Traynor Room, Alaska Fisheries Science Center, Seattle, WA

The purpose of the workshop is to facilitate feedback on how stock composition reports can be improved to better inform industry bycatch avoidance efforts. The workshop will also facilitate development of the appropriate spatial and temporal resolution of stock identification, and other associated analyses that could be used by stakeholders to minimize salmon bycatch. The Council will be provided a summary report of results from the workshop in June 2019.

Please Note: The Alaska Fisheries Science Center (AFSC) is a Federal facility and access is restricted by security to individuals with appropriate identification. U.S. Driver's licenses are accepted for admittance to the AFSC only if they are "Real ID" compliant. Alternative identification, such as a passport, is required if a license is not "Real ID" compliant. For more information on license compliance see <http://www.dhs.gov/real-id-public-faqs>.
