NORTH PACIFIC FISHERY MANAGEMENT COUNCIL
Joint Protocol Committee - 10/16/26
October 16, 2026

Joint Protocol Committee

October 16, 2026, 8:30 am - 5:00 pm AKT.

In-person: Anchorage, Alaska - Marriott Anchorage Downtown - 2nd floor Kenai/Denali Rooms

Listen-only online: https://us06web.zoom.us/j/89752081977

Purpose of Meeting:

The Joint Protocol Committee is convening at the request of the Board of Fisheries, in order to provide for information exchange and education about the impacts of bottom contact from trawl fisheries, the Council's current management requirements, and measures under consideration. This information is intended to inform any future consideration of proposals that may come before the Board. **The Joint Protocol Committee does not generate proposals, and does not take action on proposals under consideration by the Board of Fisheries or the Council.**

Public Comment: The Committee will review all written public comments submitted prior to the meeting. The comment portal will open on September 8th, and the deadline to submit written comments is **Friday, October 9th, at 5:00pm Alaska time.** The Committee will also hear public testimony from in-person attendees (no remote testimony). Please signup on the morning of the meeting (October 16th). The Chair will determine the exact time limit per testifier based on time available and how many people wish to testify, but ideally aiming for 3 minutes per testifier.

Administrative

Please submit any written comments here, between Sep 8th and Oct 9th.

Introductions and Welcome

Introductions

Purpose of Meeting, Agenda

Staff and Expert Presentations

Pelagic and non-pelagic trawl fisheries operating in state waters in the Bering Sea, Aleutian Islands, and Gulf of Alaska

Federal fishery management measures in effect to minimize adverse impacts of trawl fisheries (e.g., closed areas, and gear modifications including salmon excluders)

Statutory requirements for assessing the impacts of Council-managed groundfish fisheries on habitat, and tools the Council uses

Ongoing research on understanding pelagic trawl gear impacts (Gear Innovation Initiative), operationality of bottom contact sensors, and other innovations

Council actions underway related to habitat (EFH 5-year review) and bottom contact (pelagic trawl gear performance standard)

Public Testimony

On Oct 16th, sign up here to give in-person public testimony.
